
DEFENSE TRANSPORTATION COORDINATION (DTC) IN GLOBAL FREIGHT MANAGEMENT (GFM)

GFM TRAINING STAFF:

JANICE CASH

ALLISON WILTISON

WHAT IS DTC

- The Defense Transportation Coordination is designed to save the DoD on transportation expenditures through the consolidation and optimization of freight movements by a single provider.
- The DTC contract has been awarded to Menlo Worldwide Logistics (MWWG).
- The DTC Coordinator determines the appropriate mode and arranges, controls and monitors freight shipments.

WHAT IS A DTC SHIPMENT?

- **Voluntary** shipments are DTC-eligible.
 - No more Tailored Transportation Contract (TTC)
- CONUS origin and destination **only**.
- DTC is “mode-neutral”, but currently FAST can only process Motor or Air shipments, **no Rail**.
 - Although DTC is mode neutral, there will be times a mode might need to be specified.
- **HAZMAT UN/NA ID** is DTC eligible.
- **Overweight/over-dimensional** (OW/OD) shipments that meet all other DTC criteria are DTC-eligible (and can be entered in **FAST** – not Spot Bid – using new accessorial code).

INCLUDED MOTOR ACCESSORIALS

- The following Motor Accessorial and Protective Services are part of the DTC contract. Selection of any services not on this list excludes a shipment from DTC eligibility:
 - 405 – Fuel Surcharge
 - 520 – Overdimensional
 - 675 – Signature & Tally
 - CHN – Chains & Binders
 - DEP – Detention with Power Unit
 - DET – Detention without Power Unit
 - ELS – Extra Lights
 - EMT – Empty Equipment Movement
 - EXC – Exclusive Use
 - EXD – Dual Driver
 - EXP – Expedited *
 - HOL – P/U & Del on Sundays & Holidays
 - LIE – Carrier Liability
 - MEN – Overnight Subsistence

* See slide 68

INCLUDED MOTOR ACCESSORIALS

– Continued:

- MES – Escorts & Flag Bearers
- MET – Mobile Telephones
- MVS – Motor Surveillance
- PER – Overweight Permits
- PTS – Protective Tarping
- PUD – P/U & Del Outside Business Hours
- RCC – Reconsignment or Diversion
- RCL – Redelivery
- RLS – Relocation of Vehicle
- RSS – Restricted Speeds
- SAT – P/U & Del on Saturdays
- SDL – Split Delivery
- SOC – Stop-offs
- SPU – Split Pickup
- SRG – Storage
- URC – Loading/Unloading by Carrier
- VFN – Vehicles Furnished but Not Used
- WTV – Weight Verification

INCLUDED AIR ACCESSORIALS

- The following Air Accessorial and Protective Services are part of the DTC contract. Selection of services not on this list excludes a shipment from DTC eligibility:
 - 520 – Oversized Air Freight
 - 675 – Signature & Tally
 - AIR – Air Service Level and Type
 - HOL – P/U & Del on Sundays & Holidays
 - PUD – P/U & Del Outside Business Hours
 - RCC – Reconsignment or Diversion
 - RCL – Redelivery
 - SAT – P/U & Del on Saturdays

WHAT IS NOT A DTC SHIPMENT?

- OCONUS freight movements beyond the Port of Embarkation
- Universal Services Contract (USC) shipments
- OCONUS unit moves (more to come on *CONUS* unit moves)
- Sensitive and/or classified shipments
- Arms, ammunition and explosives (AA&E)
- Bulk and missile fuels
- Shipments moved under existing Small Package contracts (150 pounds or less) that can be shipped via Small Package Express (SPE)

WHAT IS NOT A DTC SHIPMENT?

- Household Goods except Direct Procurement Method (DPM)
- DoD shipments with organic equipment (unless identified in the DTC PWS)
- Privately-owned vehicles (POV), drive-away or tow-away service moved via any conveyance
- Vendor shipments (except Defense Distribution Centers [DDC])
- Shipments under on-site local drayage contracts or agreements

EXCLUDED COMMODITIES

- The following commodity codes are not part of the DTC contract. Selection of any of these codes excludes a shipment from DTC eligibility:

- 014255 – Missiles/Rockets
- 06430001 – Ammo
- 06430002 – Ammo
- 06430003 – Ammo
- 06430004 – Missiles/
Rockets
- 091720 – Gun Barrels
- 137300 – Military
Impedimenta
- 14631501 – Rocket
Launchers
- 146470 – Ordnance
- 146790 – Torpedoes
- 146810 – Torpedoes
- 155250 – Petroleum Oil
- 15525001 – Petroleum Oil
- 15525002 – Petroleum Oil
- 162813 – Rocket Parts
- 169605 – Rifles
- 169610 – Rifles
- 99991501 – Gasoline
- 99991502 – Gasoline
- 99991503 – Kerosene

EXCLUDED COMMODITIES

- Continued:
 - 99991504 – Turbine Fuel
 - 99991505 – Diesel
 - 99991506 – Oil
 - 99991507 – Oil
 - 99991508 – Turbine Fuel
 - 99991509 – Turbine Fuel
 - 99991510 – Turbine Fuel
 - 99991511 – Turbine Fuel
 - 99991512 – Turbine Fuel
 - 99991513 – Turbine Fuel
 - 10024001 – Crated Household Goods

HOW DTC WORKS IN FAST

- FAST shipments that meet DTC criteria are automatically routed to DTC. The GFM Host is the “traffic cop” and determines which shipments are DTC and which are voluntary.
- Spot Bid conversion functionality is disabled in FAST for DTC-enabled sites.
 - Spot Bid use for non-DTC shipments has not changed. Continue using Spot Bid as usual.
- DTC Shipments may not have stop-off locations in FAST.
- DTC Shipments may not be Multiple Equipment shipments in FAST.

HOW DTC WORKS IN FAST

- The basic shipment creation process within FAST has not changed.
- Site must become DTC-enabled in FAST/GFM.
- Shipments in FAST are transmitted to the DTC coordinator via the FAST Rating and Ranking process. This constitutes “placing an order” with Menlo.
- The DTC Coordinator has 4 hours to arrange transport with their network of carriers and return the information to the shipper via the FAST Award screen.

DTC ACTIVATION IN GFM

- DTC capability in GFM is based on GBLOC and Site ID.
- DTC PMO requests GFM team set up new site for DTC capability.
- GFM programs new site for DTC eligibility.
- Site Supervisor enables DTC capability on or after rollout date set by DTC PMO.
- Site Supervisor may not reverse once enabled.

DTC ACTIVATION IN GFM

The screenshot shows a Microsoft Internet Explorer browser window titled "Site Configuration Screen - Microsoft Internet Explorer provided by SDDC - Alexandria". The address bar shows "https://salvia.eta.sddc.army.". The main content area is titled "Site Configuration Screen" and contains several buttons: "Reset", "Site Config Exit Without Save", and "Site Config Main Menu". A dialog box titled "Microsoft Internet Explorer" is overlaid on the page, containing a question mark icon and the text "You are about to enable LFAH50 to DTCI Site!". The dialog box has "OK" and "Cancel" buttons. The background page contains a form with the following fields and values:

- Fields marked with an * are mandatory!
- *GBLOC: LFAH

CHANGES TO RATING AND RANKING

- GFM Host determines if shipment meets DTC criteria and forwards DTC-eligible shipments to the DTC Coordinator.
- Once a shipment is flagged by the Host as DTC, it must be completed as a DTC shipment.
 - It cannot be “changed back” by the Help Desk, a programmer, or any govt. representative.
 - If it cannot be completed as DTC, the shipment must be cancelled.
- Do not use browser Back button when processing a shipment; use only FAST navigational buttons!

CHANGES TO RATING AND RANKING

- Shipper receives notification that shipment has been forwarded to DTC for processing. During this time, shipment can be found on DTC Shipments List and can be cancelled.
- Shipper receives on-screen notification when shipment is returned from DTC Coordinator.

CHANGES TO AWARDING A SHIPMENT

- Menlo is the only carrier displayed on Award screen.
- Award screen includes access to Carrier Details screen both before and after awarding.
 - Print the Carrier Details screen to have a paper record of the cost of the shipment. Cost estimate does not print on the BL.
- Via screen is available from Shipment Header screen after awarding:
 - If carrier transporter changes following response from DTC Coordinator, an email is generated and sent to shipper.
 - Shipper edits Carrier SCAC on Via screen and “Updates”.

UPDATING A SHIPMENT

- While in Awarded status, Shipper can currently update the (1) delivery date, (2) quantity, (3) cube, and (4) weight, as well as (5) SCAC (on Via screen).
- After shipment is modified, shipper clicks Update button on the Short Form Bill of Lading screen and gets one of three messages:
 - Error: Shipment request has been modified and is no longer DTC eligible. Shipment must be corrected before the update can be submitted.
 - OK: Shipment request has been reviewed by the Host. No update to DTC Coordinator required.
 - OK: Shipment update submitted to the DTC coordinator.

UPDATING A SHIPMENT

DTCI Award Screen - Microsoft Internet Explorer provided by SDDC - Alexandria

The screenshot shows a Microsoft Internet Explorer browser window titled "DTCI Bill of Lading - Microsoft Internet Explorer provided by SDDC - Alexandria". The address bar shows the URL "https://crane.eta.sddc.army.mil/fast/FM". The page content includes a "SHIPPER PROVIDED" section with a "Draft" status and various fields for "ORIGIN", "DESTINATION", "DATES", "TRANSPORTATION", "STOPOFF'S", "SHIPMENT SERVICE", "EQUIPMENT", and "CARRIER". A "Number Type" field is also visible.

An "Error List" dialog box is overlaid on the page, titled "https://crane.eta.sddc.army.mil - Error List - Microsoft Internet Explorer provid...". The dialog box contains the following text:

Messages from DTCI Coordinator

'Shipment request has been reviewed by the Host. No update to DTCI-Coordinator required.'

'quired.'

The dialog box has "Close" buttons at the top and bottom.

The browser's status bar at the bottom shows "Done" and "Internet".

CHANGES TO COMPLETING A SHIPMENT

Done | Unknown Zone

CHANGES TO CORRECTION NOTICES

- Correction Notice process is the same.
- Via option is available from Shipment Header screen after Award.
- Via SCAC is editable on Via screen in addition to existing Correction Notice functionality.

CHANGES TO THE OVERRIDE PROCESS

- GFM Host determines DTC eligibility.
 - Even if shipment has not yet been rated and ranked, Override process sends shipment to Host which determines DTC eligibility.
 - Once a shipment is flagged as DTC, shipper cannot override with another carrier.
- Override screen displays Menlo tender information only.

CANCELLING A DTC SHIPMENT

- Shipments transmitted to DTC Coordinator can be both cancelled and copied. When cancelling:
 - A popup box verifies user wants to cancel.
 - A second popup box asks if shipment should be copied.
- Copied shipments are given a new shipment ID and placed in Incomplete status. Dates and times return to original default status.
 - TCN is stripped from cancelled shipment for re-use in copied shipment.
 - TCN must be entered manually into copied shipment.

CANCELLING: INCOMPLETE STATUS

- Cancellation function works differently depending on what status the shipment is in.
- In Incomplete status, shipment has never been transmitted to Host or Menlo.
- Use Delete option on the menu at the top of the Shipment Header screen (or Exit Without Save if status is New).

CANCELLING: INCOMPLETE STATUS

Done Internet

DTC CANCELLED SHIPMENT LIST

DTC TRANSITION

- As soon as a new site is DTC-enabled, all New shipments and Incomplete shipments follow DTC process.
- Shipments already at Rated or Awarded status when new site is DTC-enabled will follow “old” business process and complete system processing as a Voluntary/Negotiated (or TTC) shipment.
- If you have already arranged transportation for freight to be picked up after Go Live date, enter that shipment into FAST now so that it can be completed without DTC/Host interference.

PARALLEL TESTING

- Site uses GFM “IV&V” test system to practice sending shipments using site’s own unique, site-specific data to see how system reacts.
 - Register for GFM test system access.
 - Enable DTC capability in test system.
 - Create Address and Appropriation data in test system. Test system does not contain site’s data. Enter site’s location information, some test destination addresses, TAC/LOA/etc.
 - Test both DTC-eligible shipments and non-DTC-eligible.
 - Report any problems to DTC and GFM PMO.

SUPPORT FOR DTC SHIPMENTS

- Although Menlo has 4 operational hours to respond to the initial 219 from GFM, shippers should receive the 220 response within an hour.
- If you have *not* received the 220 response (shipment has not moved to Rated status in FAST), you first need to determine if Menlo received the initial 219 file.
 - Call your Menlo Load Planner at 800-301-8175 or check ONE TMS yourself for the status of your shipment using the FAST Shipment ID number.
 - Based on the status in ONE TMS, follow one of the procedures on the next two slides to report and resolve the problem and complete your shipment.

SUPPORT FOR DTC SHIPMENTS

- If Menlo has *not* received the initial 219:
 - Send an email to the SRC at sddc.safb.gfmhd@us.army.mil.
 - Include the FAST Shipment ID number and the date and time you submitted the shipment for rating and ranking.
 - Copy the DTC Operational Support IT Team on the email: Sddc.safb.DTCit@us.army.mil *and* copy the Menlo Help Desk: dod.mwgs@menloworldwide.com.
 - Follow up with a telephone call to the SRC at 800-462-2176, Option 3 for GFM help. Tell them you have sent an email.

SUPPORT FOR DTC SHIPMENTS

- If Menlo *has* received the 219 and *has* returned the 220 (Confirmed status in ONE TMS) but the 220 is *not* in GFM:
 - Call the SDDC System Response Center (SRC) at 800-462-2176, Option 3 for GFM help.
 - Give them the FAST Shipment ID number and the date and time TMS indicates that it sent the 220.
 - If the problem is not resolved prior to carrier arrival, manually print the draft BL and process the shipment.
 - Complete the shipment in FAST once the 220 is received.

CURRENT KNOWN ISSUES

- Shipments to OCONUS using CONUS SPLCs are routed to DTC. Use an excluded accessorial (e.g., 045) to keep shipment Voluntary, so that an override can be used to finish processing as usual.
- FAST OW/OD shipments are limited to a single unit line item on the Unit Entry screen.
- Special requirements entered in Remarks blocks have never transmitted to carriers – they only show up on the printed BL.
 - For specific requirements (TWIC requirement, driver nationality, etc.), shipper must call or email Menlo load planner with specifics.

CURRENT KNOWN ISSUES

- The Expedited accessorial (EXP) means something different for DTC than for Voluntary:
 - With a Voluntary shipments, it's a motor accessorial that means the delivery date falls outside of the standard delivery time.
 - With DTC, it applies to motor or air shipments that must be (1) picked up earlier than the contractual 8 hours from Menlo receipt of 219 request, and/or (2) requires delivery before 1200 the next day.
- If you know the shipment meets DTC criteria, enter Mode B in FAST, enter the EXP code, and call Menlo to explain.

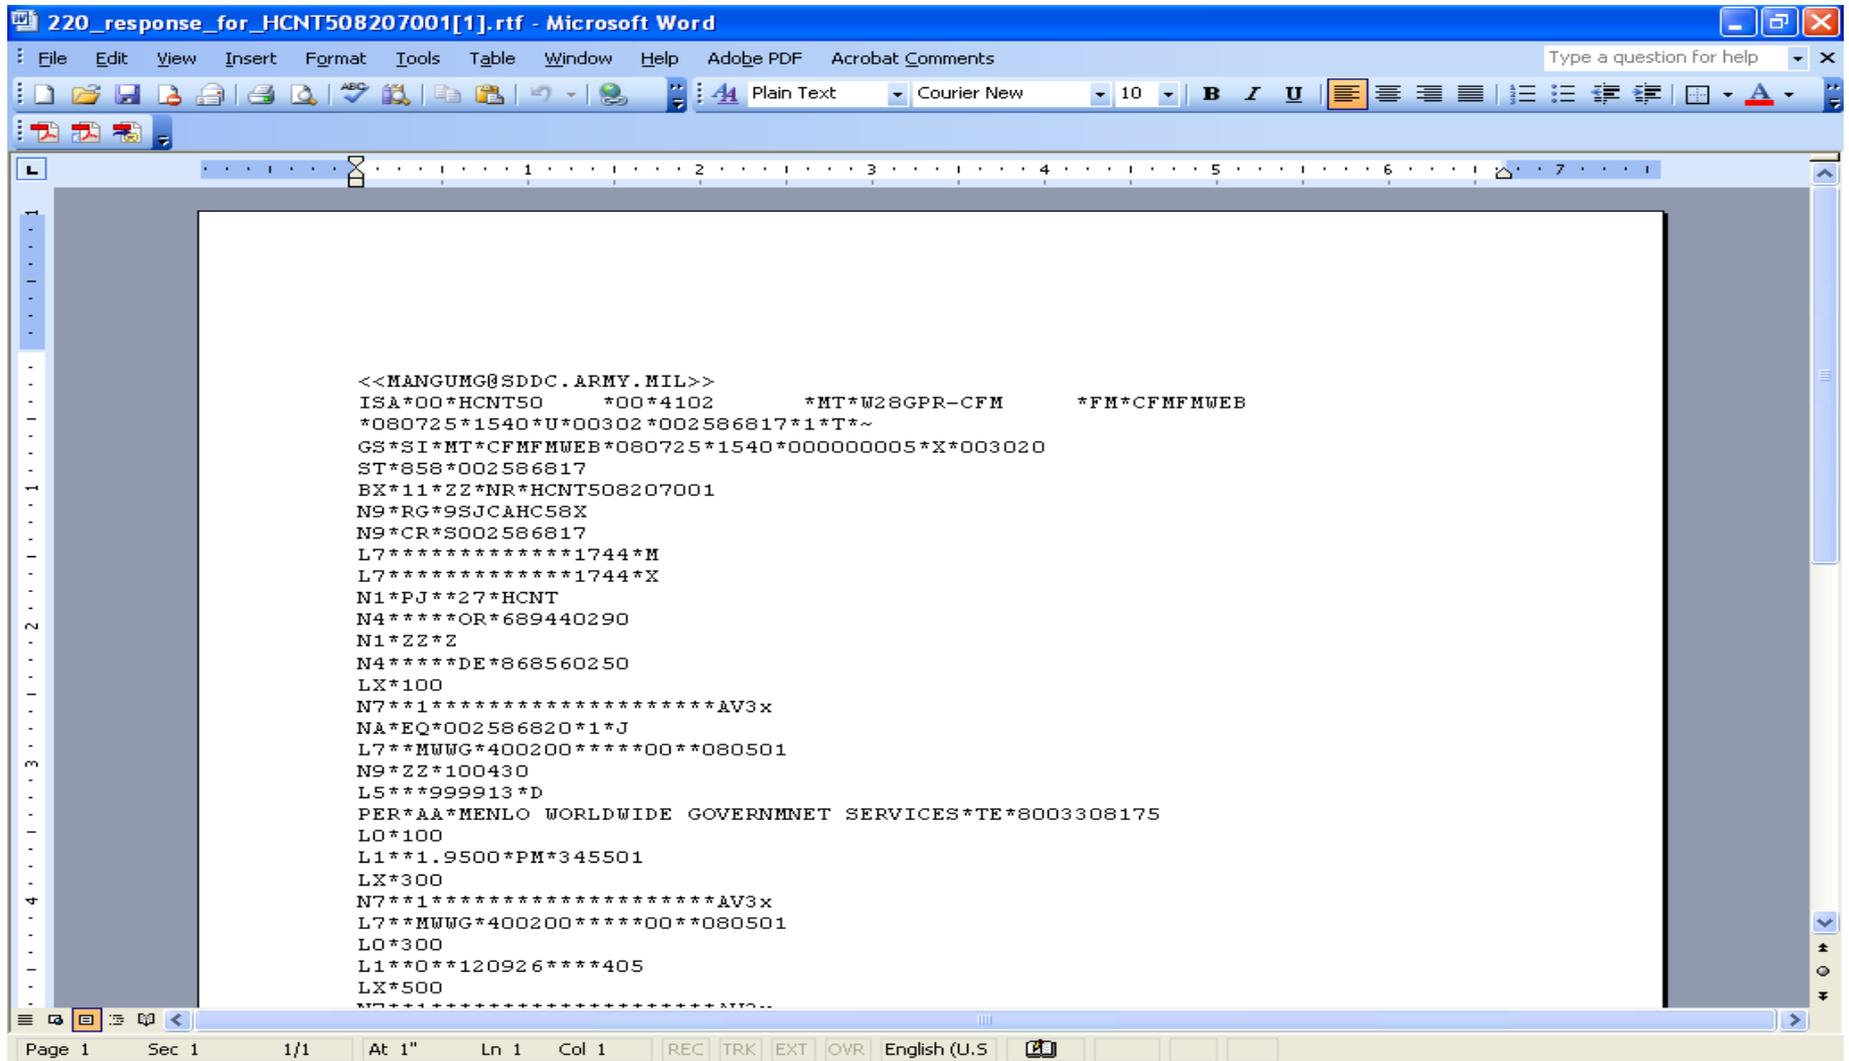

CURRENT KNOWN ISSUES

- The Hazardous Materials accessorial (HAZ) is currently causing issues for Menlo when transmitted.
 - With a Voluntary shipment, it's an air accessorial that must be used to avoid a cost mismatch with PowerTrack.
 - DTC shipments do not require a HAZ code. If you know the shipment meets DTC criteria, do not enter the HAZ code so that the shipment request will pass through to Menlo.
 - Do enter all other hazardous-related shipment information.

CURRENT KNOWN ISSUES

- Unit Moves are DTC optional; however they are routed to DTC automatically if all other DTC criteria are met.
 - To create a Voluntary Unit Move shipment, use the Military Impedimenta commodity code (137300).
- Shipments modified following Award require a response from the DTC Coordinator which is communicated to the shipment creator via email.
 - Email format is “challenging” – it is the EDI 220 response file. Contact Menlo load planner for specifics.
 - Use Update function to enter change to BL.

NEXT STEPS

- Complete Parallel Testing
- Go Live:
 - Origin Coordination with Menlo
 - All Address Maintenance data will be accessible in production system.
 - Ensure six-character DoDAACs
 - Always use a valid DoDAAC where one exists
 - Update emergency phone numbers to automatically populate RINs
 - Activate Site
 - Create Shipments
