

Part 1	
DTEB DATA MAINTENANCE WORK REQUEST FORM	
DATE SUBMITTED: 01/24/2011	DM NUMBER: 1002
USE THIS FORM TO REQUEST A NEW OR A CHANGE TO AN EXISTING DoD EDI CONVENTION OR ASC X12 STANDARD. Complete all required actions. Numbered attachments may be used for continuation.	
ITEM 1: SUBMITTER INFORMATION	
If the submitter information below is incorrect contact: Mr. David (Dave) Jimenez, USTC-ITS@ustranscom.mil, DSN 779-3056, Comm (618) 229-3056 to update.	
NAME Mr. Emmet G Lung	ORGANIZATION TCJ5/4-TA
Application Systems Affected: CMOS, DAAS, DSS, FACTS, GATES, GTN, IGC, MDSS, Other, TCAIMS, WPS,	
EEmail ADDRESS emmet.lung.ctr@ustranscom.mil	PHONE (DSN) 770-4633 PHONE (COMMERCIAL) (618) 220-4633
ITEM 2: REFERENCES	
Identify either the DoD EDI convention or ASC X12 standard requiring change. If a new convention or standard is required, type "NEW" in place of the title.	
Type DoD EDI (C)onvention	TITLE: DTEB 858.M.004010 TRUCK-WATER-AIR MANIFEST
ITEM 3: PROPOSED WORK	
Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.	
ACTION: Change	Description:
At index 12-02 and index 206-02, change NTE02 data element "Active RFID Tag Serial Number" data attribute from 1/10 to 1/32.	
At index 206-02, change NTE02 segment Active RFID Tag Serial Number data attribute from 1/10 to 1/32.	
ITEM 4: REASON FOR CHANGE (business case)	
Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.	
Affects only systems writing or receiving 858M truck manifests with active RFID tag information.	
The active RFID tag is migrating to an ISO/IEC 18000-7 protocol standard that requires at least 14 characters for the active tag serial number. For consistency purposes, this transaction should match the field size currently used by the RFID-III ITV Server Interface Document record descriptions for the tag ID field, which is 32 characters. This will allow for new technology growth, which may include satellite tag ID numbers.	
The migration is in progress and ISO tags are currently being written but few are currently associated with a truck manifest.	
ITEM 5: PRIORITY/REQUIRED DATE	
Identify priority and required date of change.	
PRIORITY: (R) - Routine	Required by date: 04/01/2011
Administration change only. No DTEB vote required for approval.	Vote required.
ITEM 6: Reviewed	
REVIEW ACTION: TRANSCOM Review	
Comments: John, recommend expeditious approval for vote. HG 1/24/11	
ITEM 7: Reviewed by TRANSCOM.	
APPROVAL ACTION: Approved	

Comments:
3 Feb 11

Approved for expedited vote

John G. Will - DEDO

ITEM 8: Ask for an additional reviewer's inputs.

Don't ask an SME to review this DM.

Comments:

ITEM 9: Voting.

Voting Action: Released for Voting

Due Date: 02/11/2011

Voting Comments:

ITEM 10: Final Approval.

Approval Action: Approved

Final Approval Comments:
Approved by vote 2/11/2011.
