TITLE:

DTEB 304.B.004010 VERIFIED SHIPPING INSTRUCTIONS (VSI) NOTIFICATION VERSION 2

ITEM 3: PROPOSED WORK

For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Change

Description:

1. In the N703 at index [20-03] replace the element note that reads: "Cargo + dunnage (does not include weight of container or chassis)." with an element note that reads: "If N704 equals 'CE' this will be the combined weight of Cargo + dunnage (does not include weight of container or chassis). If N704 equals 'A6' this will be the Verified Gross Mass (VGM) of the shipment (includes cargo + dunnage + container tare weight)."
2. In the N704 at index [20-04] add the code value 'A6' to include the following DOD definition:
Code == X12 Definition == DOD Definition
A6 == Verified Gross Mass

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

The shipper must provide the Verified Gross Mass (VGM) for containerized shipments being transported by ocean per Safety of Life at Sea (SOLAS) requirements. This change adds the new X12 code for VGM.
