DTEB DATA MAINTENANCE WORK REQUEST FORM		
DATE SUBMITTED: 09/29/2016	DM NUMBER: 1238	
USE THIS FORM TO REQUEST A NEW OR A CHANGE TO AN EXISTING DoD EDI CONVENTION OR ASC X12 STANDARD. Complete all required actions. Numbered attachments may be used for continuation.		
ITEM 1: SUBMITTER INFORMATION		
If the submitter information below is incorrect contact: Mr. Thomas (Tom) M. Becker, transcom.scott.tcj6.mbx.DTEB-Account@mail.mil, DSN 770-4411, Comm (618) 220-4411 to update.		
NAME Ms. Laura J. Campbell	ORGANIZATION SDDC	Application Systems Affected: IBS,
EMail ADDRESS laura.j.campbell12.ctr@mail.mil	PHONE (DSN) 770-6765 PHONE (COMMERCIAL) (618) 220-6765	
ITEM 2: REFERENCES		
Identify either the DoD EDI convention or ASC X12 standard requiring change. If a new convention or standard is required, type "NEW" in place of the title.		
Type DoD EDI (C)onvention	TITLE: DTEB 315.A.004010 STATUS DETAILS (OCEAN) VERSION 10	
ITEM 3: PROPOSED WORK		
Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.		
ACTION: Change	Description:	
In the R401, DE 115, at Index 5-01, make the following changes: Remove the following codes and the associated meaning: Code == X12 Definition == DOD Definition D == Port of Discharge (Operational) O == Origin (Operational) Change the DOD definition for the following X12 codes: Code == X12 Definition == DOD Definition 1 == Final Port of Discharge (Operational) == Final Port of Debarkation (POD) (Operational) L == Port of Loading (Operational) == Port of Embarkation (POE) (Operational)		

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

The current practice of having 2 codes for POD and Final POD (code "D" and code "1") causes confusion. The carriers and IBS are only using code "1" for POD so we propose to remove code "D". Similarly, the practice of having 2 separate codes for Place of Receipt and Origin creates confusion. The carriers and IBS are only using code "R" so we propose to remove code "O".

We also propose to denote codes "1" and "L" to reflect their actual usage in the 315. We propose Code "1" be denoted to reflect the DOD standard term for Port of Debarkation (POD). We propose Code "L" be denoted to show the DOD standard term of Port of Embarkation (POE). Standard terms for POD and POE are from the Defense Transportation Regulation (DTR 4500.9R) Definitions (7 March 2016).
