

Acquisition authority is granted to United States Transportation Command (USTRANSCOM), by the Under Secretary of Defense, Acquisition, Technology, and Logistics (OUSD/ATL), and managed by the Component Acquisition Executive (CAE). The CAE designates an acquisition program to fulfill a validated and resourced need in accordance with DoDI 5000.02, Operation of The Defense Acquisition System.

Mission: One Acquisition Team focused on cost, schedule, performance, and risk to develop, field, and sustain effective enabling capabilities supporting USTRANSCOM

Vision: Acquisition Excellence in Program management

Program Executive Office (PEO-T) Objectives

Preserve Readiness Capability:

- Provide acquisition expertise to transportation services contracting efforts
- Develop innovative partnerships with TCCs in terms of program/project management of programs
- Deliver products & services to enable command transportation strategy

Achieve IT Management Excellence:

- Provide acquisition management for the command
- Expand transparency of program management deliverables across the enterprise in terms of cost, schedule, and performance
- Incorporate Execution and Effects Review (EER) into regularly scheduled IPRs
- Manage development of IT so it aligns with JDDE strategies

Align Resources & Processes for Mission Success:

- Improve our acquisition organizational maturity to better manage resources for USTRANSCOM acquisitions
- Perform Troop to Task (T2T) analysis across PEO-T to ensure PORs and PEO-T divisions are appropriately resourced
- Implement streamlined processes aligned with acquisition best practices
- Support Transportation Component Commands (TCC) through developing or assuming existing acquisition programs

Develop Customer-Focused Professionals:

- Develop an enhanced, integrated professional development program for mobility professionals
- Improve sophistication of our focus on customer requirements
- Develop a human capital strategic plan that aligns skill requirements to the future joint force
- Optimize support for global mobility by enhancing workforce capability and innovation
