- (6) Dangerous Good Shipments. “In accordance with the requirements of SOLAS 74 and the IMDG Code, the primary requirements of a dangerous goods shipping document is to clearly and concisely convey the fundamental and required information of regulated HAZMAT being transported internationally. It is not the intent to require a separate transportation document for dangerous goods when a consignment contains both dangerous and non-dangerous goods or to restrict the number of individual dangerous goods descriptions that may appear on a single document”. Officials of all countries are now monitoring HAZMAT containers very closely. This will mean a more intensive check on documentation. Containers arriving with an inaccurate DD Form 2890, Figure 515-1, for HAZMAT cargo will be frustrated at the port of discharge. To avoid confusion and to try to alleviate further errors during the shipment of HAZMAT, guidance on using the proper shipping forms and documentation for transporting HAZMAT is being provided as follows:

1. DTR, Part II, Cargo Movements, Chapter 204, Paragraphs F.6 and G.4.
2. Title 49, Code of Federal Regulations, current version.

2. Cargo. Niger allows for the importation and exportation of diplomatic cargo to be free of all inspection, license, customs, duties, taxes, or any other charges assessed within the Republic of Niger. The exoneration and importation require a signed exoneration certificate from the Republic of Niger. The process to obtain a signed exoneration certificate can take upwards of 30 days. To start the exoneration process, the following documents must be forwarded to the U.S. Embassy GSO Customs Team at [NiameyShipping@state.gov](mailto:NiameyShipping@state.gov) and the responsible agency liaison. These shipments require the Airway Bill to reflect Delivery Duty Paid (DDP) funding code designation. Be advised to permanently omit the Delivery Duty Unpaid (DDU) funding code on all future shipments. Failure to avoid the use of the DDU funding code will result in the incurrence of Niger Customs fees against the DoD and cause the cargo to be frustrated.
  - a. Information to the shipper/freight forwarder. Pre-release of DoD cargo upon arrival is authorized and directed by the U.S. Embassy in Niamey to ensure expeditious delivery of cargo bound to DoD entities ISO current/sustainment operations and exercises.

Upon arrival of surface shipments: If shipped door to door, move the shipment immediately out of the sea port to the appropriate Niamey customs yard (Rive Droite, Benin, or Niamey Route, Togo). Apply for pre-release shipment. If denied pre-release, contact the U.S. Embassy Customs Team at above email. The U.S. Embassy Customs Team will utilize the U.S. Embassy pre-release form.
