

## CHAPTER 413

### US GOVERNMENT BILL OF LADING--PRIVATELY-OWNED PERSONAL PROPERTY (PPGBL/BL) (SF 1203) AND US GOVERNMENT BILL OF LADING CORRECTION NOTICE (SF 1200)

#### A. GENERAL

This chapter establishes procedures and provides guidance for the accountability, use, issuance, preparation, and distribution of the SF 1203, US Government Bill of Lading-Privately Owned Personal Property, [Figure 413-1](#). The PPGBL/BL must be used for the acquisition of authorized transportation and related services from commercial TSP for the movement of DOD-sponsored personal property shipments, mobile homes, and POVs eligible for movement on a PPGBL/BL. (This chapter does not apply to PPM.)

#### B. RESPONSIBILITIES

1. SDDC is responsible for prescribing administrative procedures regarding the use of PPGBL/BLs for the procurement of commercial transportation services on behalf of the DOD.
2. The Administrator, GSA, is responsible for prescribing procedures governing the use of PPGBL/BLs throughout the US Government. GSA has published the regulations and procedures governing the procurement of, and the billing and payment for, transportation services for the account of the US in the Federal Management Regulation, Part 102-118, Transportation Payment and Audit.

#### C. PROCEDURES

1. Supply. At locations that cannot create computer generated PPGBL/BLs, requisitions must be submitted through normal DOD Component publications supply and distribution channels to the US Army Publications and Printing Command. TOs are responsible for maintaining an adequate supply of PPGBL/BLs at their activity.
2. Accountability.
  - a. Each shipping activity must maintain records of PPGBL/BLs issued and the supply of PPGBL/BLs on hand. PPGBL/BL forms are accountable, and the number of pre-printed forms that an activity may keep on hand is limited by Service/Agency policy. Internal procedures must be established to control stocks and assign accountability for PPGBL/BL issuance and use. The TO, or in the absence of a TO, an acting TO, must be appointed in writing as the responsible PPGBL/BL issuing officer and held accountable for PPGBL/BL control, safekeeping, and disposition. To facilitate control, individual PPGBL/BL sets are serially numbered when printed. The forms are issued by US Army Publications and Printing Command and numbers provided by SDDC. Packages of PPGBL/BLs must be opened immediately upon receipt and inventoried by the issuing officer or designated representative to verify that none are missing. Activities must establish procedures for conduct of audits by personnel external to the office controlling SF 1203s. Audits must be conducted at least every 180 days to verify inventories and records. TOs must provide the same level of accountability and safeguarding of PPGBL/BL numbers maintained and issued in automated systems as they do for pre-numbered PPGBL/BL forms. Audits conducted with automated systems must consist of a review of the PPGBL/BL register to ensure each PPGBL/BL number is properly assigned to a valid shipment or recorded as void.

- b. Computer-Prepared PPGBL/BLs. TOs, having facilities for computer preparation of PPGBL/BLs, may order them in continuous tractor feed, fan-fold format through government distribution centers. Authorization must be obtained from SDDC to imprint PPGBL/BL numbers at the time of issuance.
    - (1) [Automated Sites](#). The laser generated PPGBL/BL must be used by all automated sites for the acquisition of authorized transportation and related services from commercial TSPs for the movement of DOD sponsored personal property shipments, mobile homes, and POV's eligible for movement on a PPGBL/BL. Use software generated PPGBL/BLs (SF 1203) and continuation sheets (SF 1109) published using a laser printer and standard bond paper. SDDC controls PPGBL/BL numbers in coordination with GSA. The laser generated PPGBL/BLs are only accountable when a number has been assigned to the form. All information printed on the reverse of the non-laser produced PPGBL/BL is included in the TOS, Appendix B. The first PPGBL/BL produced (and continuation sheets) must be annotated "Original." All other copies/reprints must not contain the word, "Original."
    - (2) [Non-Automated Sites](#). Blank forms must be procured using normal forms supply procedures.
  - c. Transfer of Forms. Blank serially numbered original PPGBL/BLs or preassembled sets that have been issued to TOs or their designated agents may not be transferred to other TOs or their agents.
  - d. Disposition of Unfit or Canceled PPGBL/BLs. When PPGBL/BLs have become mutilated or otherwise unfit for use or have been issued and the planned shipment is subsequently canceled for any reason, all parts except the original must be destroyed. The original PPGBL/BL must be marked "Canceled" or "Void" and must be filed in the property shipped PPGBL/BL file. When circumstances prevent filing of the canceled or voided original document, the property shipped copy or a substitute memorandum copy with notation of disposition of the original PPGBL/BL must be filed in the property shipped file.
  - e. Reporting of Lost, Stolen, Canceled, or Missing PPGBL/BLs. The prefix symbol and serial number of blank original PPGBL/BLs or preassembled sets that have become lost, stolen, or are unaccountably missing or otherwise beyond the control of the issuing officer must be reported to SDDC.
3. [Issuing Officer](#). Only authorized or acting TOs may issue PPGBL/BLs. Such authorized persons may be military personnel or civilian employees of the government on duty at the issuing office. As stated in 41 CFR 101-41.302.4, accountability for PPGBL/BLs used by a contractor-shipper remains with the issuing office. The name and title of the issuing officer and the name and address of the issuing office, rather than those of the contractor-shipper, must appear on the PPGBL/BL.
4. [Format](#).
- a. Computer generated PPGBL/BLs are all marked SF 1203. In instances where computer generated PPGBL/BLs are used, Paragraphs b and c below do not apply. The PPGBL/BL must be prepared and provided to the TSP or its agent prior to the commencement of packaging/loading services on the shipment.
  - b. The PPGBL/BL consists of five separate basic forms. For simultaneous preparation, the forms are produced in a seven-part, carbon, interleaved set (except for laser generated PPGBL/BLs). The standard form numbers, form title, color, and distribution is described in [Paragraph E](#) below.

- c. In all instances, the PPGBL/BL original (SF 1203), shipping order (SF 1204), and the freight waybill original (SF 1205) must be given to the initial TSP or designated agent for the TSP before the shipment is packed and/or picked up. The TSP must sign and date the original PPGBL/BL where the certification is printed “Certificate for Receipt of Shipment and Original BL.”
- d. For DPM UB shipments, the PPGBL/BL is not printed at the time of the pickup at the customer’s residence. The TSP does not take possession of the shipment until after the contractor has picked up and prepared the UB shipment. The PPGBL/BL for DPM UB shipments must not be printed until the TO/PPSO has received and input the actual weight and cube from the contractor into TOPS.

#### **D. PREPARATION OF THE PPGBL/BL**
