

APPENDIX L

CONTINGENCY 463L PALLET AND NET REPORT, FORMAT AND INSTRUCTIONS

A. INSTRUCTIONS

Obtain an initial status report of System 463L pallets and nets from each primary operating installation. Follow-on reporting will be by exception, or daily, as required. Reporting may be by either electronic means or voice using the alphanumeric format (see [Table L-1](#)). The remarks section will be used for movement information, disposition instructions, or other pertinent information. Excess serviceable and unserviceable assets will be shipped to the nearest aerial port of embarkation/debarkation. Also, use of in-transit airlift returning to the Continental United States is encouraged. Report movement in columns E and F. The report may be transmitted by unclassified voice or electronic means.

Table L-1. Contingency 463L Pallet and Net Report Format

Contingency 463L Pallet and Net Report						
ITEM	A Authorized Working Level	B Serviceable On Hand	C Additional Required	D Unserviceable On Hand	E Assets Shipped	F Destination
