

JUSTIFICATION AND APPROVAL FOR SOLE SOURCE ACQUISITION

Control # 15-17

Annual Maintenance Support for Network Transport Software Solution

RFQ: HTC711-15-Q-D022

USTRANSCOM/TCAQ-DPS requires sole source procurement of Annual Maintenance Support for Network Transport Software Solution (NTSS) in accordance with FAR 13.106-1(b)(1) . This software maintenance must be NTSS which is only provided by JDA Software, Inc. who retains exclusive licensing, title, copyright, and other proprietary rights to this software. This software is a one of its kind software that enables DPS to perform Rate Filing. DPS is in the process of releasing rate filing functionality into the DPS system; however, due to schedule delays this functionality will not be made available for the FY2015 rate filing season. Therefore, the DPS PMO has determined that it must revert back to the previous NTSS (Manugistics) process for capturing solicitation information and submitted rates of the Transportation Service Providers. The software is executed within the DPS production environment at DISA. Market research revealed that this software support is not found on any federal supply schedules. Therefore NTSS will be procured sole source through commercial, open market procedures. The value of this acquisition is [REDACTED]

This action will be synopsized in accordance with FAR 5.201(b)(1)(i) to determine whether there are other sources interested in this requirement.

[REDACTED]
