PII data originated from other DoD Information Systems, which uses the service member's Social Security Number to create a unique Transportation Control Number (TCN).

Routine Uses of records maintained in the system, including categories of users and the purposes of such uses: The Department of Defense 'Blanket Routine Uses' published at the beginning of the Air Force's compilation of systems of records notices apply to this system.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

Privacy risks associated with the PII collected includes potential risk of social security numbers. This information is protected with role based permissions to ensure only authorized personnel can access the PII. Personal information will only be disclosed to, and used by, authorized individuals who have a need to know the information in order to perform their duties.
