ITEM 2: REFERENCES

Identify either the DoD EDI convention or ASC X12 standard requiring change. If a new convention or standard is required, type "NEW" in place of the title.

Type

TITLE:

ITEM 3: PROPOSED WORK

Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Add Change Delete

Description:

At index 4-01 replace qualifier code value 'ZZ' with qualifier code value 'CN'. Remember to include the X12 description for code 'CN' from table 128.

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

To correct dual code meaning for the value 'ZZ' in N901 instances in multiple uses of the N9 segment. This DM item replaces DM 1006 in order to use a code value that is congruent with Supply Community implementations of the 858 N9 segment for the same purpose.

ITEM 1: DEVELOPMENT HISTORY

04/29/2011 08:53:34 Ms. Heidi M Daverede - DLMSO - Approve - with comments : I would like to just clarify the justification for changing to use of the "CN" code. This is actually a better choice, since it aligns with the current DTEB usage in the 858R for the same data element. Also, the supply community uses this same qualifier/definition in its DLMS 856S Supply Shipment Status, and the procurement community uses this same qualifier/definition in its WAWF 856 Advanced Ship Notice.
