01/11/2012 07:49:41 Mr. Gordon J. Fitzpatrick - USAF/CMOS - Abstain (no impact) : No impact to CMOS

01/11/2012 09:00:03 Mr. Craig R. Matlock - Air Mobility Command - Abstain (no impact) : The 300A IC and DM 1032 have no impact on the GATES air functional community.

01/18/2012 11:13:39 Ms. Heidi M. Daverede - DLMSO - Approve - with comments : 1) Suggest

that when this is incorporated into the IC, that the both the X12 and the borrowed DOD definitions be included. Historically, it has been DTEB practice that when borrowing X12 codes for alternate meanings, that the matrix clearly show both the X12 meaning and the DoD borrowed code meaning. 2) In the past, I recall an on-going effort at USTRANSCOM to tie the special handling codes (DE152) and the Special Charges and Allowances codes (DE150) together--DE 152 is used to request the service from the carrier; DE 150 is used to pay for it. If this is a continuing practice, it would seem that the equivalent codes need to be added to the applicable ICs to pay for the new services being added in the 300A.
