07/19/2012 16:35:09 Ms. Heidi M. Daverede - DLMSO - Approve - with comments : 1. Be advised that DE 152 code "045" is already borrowed in the 858R to mean "Advancing Charges" for rail, tailored transportation contracts, motor, and bulk fuel shipments. DTEB may want to consider finding an alternate code. Historically, the DTEB has tried to ensure consistent borrowing of the X12 codes within an X12 data element across all ICs, so as not to preclude any confusion at an enterprise level as to its real definition. 2. Also, while the DM states the code should be added to Section 4 of the IC; the code list is actually in Section 6 of the IC.
