ITEM 2: REFERENCES

Identify either the DoD EDI convention or ASC X12 standard requiring change. If a new convention or standard is required, type "NEW" in place of the title.

Type

DoD EDI (C)onvention

TITLE:

DTEB 315.A.004010 STATUS DETAILS

(OCEAN) VERSION 2

ITEM 3: PROPOSED WORK

Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Add

Description:

At index [2-11] in the B411 - Location Identifier, change the implementation note to read: This is free-form text for the actual location of the event. Format as follows:

a. When identifying airport locations as part of a multimodal move use the following format:

"ICAO [actual ICAO of the airport] [description of the airport]"; all 3 components are required and should be separated by a space. Example: "ICAO OOTH Thumrait AB Oman". Use of this functionality is limited to shipments in and out of the Afghanistan Theater of Operations in support of Operation Enduring Freedom only.

b. For all shipment moves other than those occurring at an airport as part of a multimodal move contracted with an ocean carrier in and out of the Afghanistan Theater of Operations in support of Operation Enduring Freedom, use the following format: City State/Province ISO country code; all 3 components are required and should be separated by a space. Example: "Norfolk VA US".

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

Resubmission of DM 1058 by including a statements to limit operational usage and duration to shipments in support of Operation Enduring Freedom.

SDDC has contracted ocean carriers to move selected defense cargo via air into and out of Afghanistan in order to meet required timelines. Under a new Performance Work Statement, ocean carriers will be contractually required to report status and location information on all DOD moves using the 315 - Status Detail (Ocean) transaction set. The Defense Transportation Electronic Business (DTEB) Implementation Convention (IC) - 315A - Status Detail (Ocean) requires modification in order to differentiate event location types in support of this requirement. The requested change is to the "implementation note" on the B411-Location Identifier data element to define the business rules when using the 315A to report the air segment of an ocean carrier's multimodal move. Please contact Tina Woodbury, 618-220-5673, or Nancy Lopez Cruz, 618-220-5651, if you have any questions about this DM.
