EMail ADDRESS nancy.lopezcruz.ctr@mail.mil	PHONE (DSN) 770-5651 PHONE (COMMERCIAL) (618) 220-5651	

ITEM 2: REFERENCES

ITEM 3: PROPOSED WORK
Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Change	Description:

Change Section 3.0 Ref. Des. B104 Data Element 558 note from "For code value 'C' a counter proposal can ONLY be made for a change in vessel or a change in port." to read "For code value 'C' a counter proposal can ONLY be made for a change in vessel, port or Required Delivery Date (RDD)."
Change Section 4.0 Index 7 note from "For code value 'C' a counter proposal can ONLY be made for a change in vessel or a change in port." to read "For code value 'C' a counter proposal can ONLY be made for a change in vessel, port or Required Delivery Date (RDD)."

ITEM 4: REASON FOR CHANGE (business case)
Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satified by a change to the convention. Technical assessment requires enought information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

The business rules allow for the use of the EDI 301 to convey counteroffers from the carrier for vessel, port or RDD but the IC note restricts to only vessel or port. This change to the IC will align the notes since the IC already allows for the Counter in RDD in the DTM segment.
