Type

DoD EDI (C)onvention

TITLE:

DTEB 301.A.004010 CONFIRMATION
(OCEAN) VERSION 0

ITEM 3: PROPOSED WORK

Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Add

Description:

Section 3.0:

Add "IM" - Military Standard Movement Procedures (MILSTAMP) Location Qualifier in the R402. Delete current note which appears to be erroneous. Add a note to state that MILSTAMP is also known as DOD Water Port Codes. Add note stating the source of the DOD Water Port Codes is TRDM. Add note stating DOD prefers the DOD Water Port Codes be sent vs. the Schedule D or K Census codes.

Section 4.0 at index 24:

Add "IM" - Military Standard Movement Procedures (MILSTAMP) Location Qualifier in the R402. Delete current note which appears to be erroneous. Add a note to state that MILSTAMP is also known as DOD Water Port Codes. Add note stating the source of the DOD Water Port Codes is TRDM. Add note stating DOD prefers the DOD Water Port Codes be sent vs. the Schedule D or

K Census codes.

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

There are disconnects between the Schedule D/K Census and DOD Water Port Codes. The census codes are not as granular as the Water Port Codes used by the DOD. There are also examples of missing codes for ports the DOD uses. Adding the option to send the DOD Water Port Codes would help resolve booking/payment issues with the carriers. It would also Alleviate the need to employ complicated translations, which are at best a guess.

Winters - SDDC/GFM - Abstain (no impact) : Although GFM does not use the 301.A.004010, the PMO would like to confirm use of DOD Water Port Codes, available in TRDM, to identify shipping locations. Since GFM does not use the Schedule D/K Census, this disconnect is not relevant to the system.
