

Part 1

DTEB DATA MAINTENANCE WORK REQUEST FORM

DATE SUBMITTED: 01/22/2014	DM NUMBER: 1131
-------------------------------	-----------------

USE THIS FORM TO REQUEST A NEW OR A CHANGE TO AN EXISTING DoD EDI CONVENTION OR ASC X12 STANDARD.

Complete all required actions. Numbered attachments may be used for continuation.

ITEM 1: SUBMITTER INFORMATION

If the submitter information below is incorrect contact:

Mr. David (Dave) Jimenez, transcom.scott.tcj6.mbx.DTEB-Account@mail.mil, DSN 770-3896, Comm (618) 220-3896 to update.

NAME Mr. Gordon M. Allbritton	ORGANIZATION AFMC AFLCMC/HIAR	Application Systems Affected: All,
----------------------------------	----------------------------------	---------------------------------------

EMail ADDRESS gordon.allbritton@us.af.mil	PHONE (DSN) 596-2067 PHONE (COMMERCIAL) (334) 416-2067
--	---

ITEM 2: REFERENCES

Identify either the DoD EDI convention or ASC X12 standard requiring change. If a new convention or standard is required, type "NEW" in place of the title.

Type DoD EDI (C)onvention	TITLE: DTEB 856.A.004010 RECEIPT/SHIPMENT-CONSOLIDATION/DUE-IN/REPSHIP VERSION 2
------------------------------	--

ITEM 3: PROPOSED WORK

Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Change	Description:
----------------	--------------

Change the DoD Recommended Attributes Size for index 66-02 (REF02) NSN/CAGE + Part Number from 1/13 to 1/30 to accomodate the CAGE + Part Number option.

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

The size increase is needed to accomodate the CAGE + Part Number option. The 13 character max is fitting for the NSN but does not accomodate the CAGE + Part Number. This would also put the 856A in line with the 858B, 858M and 858R for the same Data Name item.

ITEM 5: PRIORITY/REQUIRED DATE

Identify priority and required date of change.

PRIORITY: (R) - Routine

Required by date: 01/31/2014

Administration change only. No DTEB vote required for approval.

Vote required.

ITEM 6: Reviewed

REVIEW ACTION: TRANSCOM Review

Comments:

Reviewed and recommend release for member vote. 23 JAN 14 PGV

ITEM 7: Reviewed by TRANSCOM.

APPROVAL ACTION: Approved

Comments:

ITEM 8: Ask for an additional reviewer's inputs.

Don't ask an SME to review this DM.

Comments:

ITEM 9: Voting.

Voting Action:

Released for Voting

Due Date:

02/07/2014

Voting Comments:

Released for member vote 23 JAN 14 PGV

ITEM 10: Final Approval.

Approval Action:

Approved

Final Approval Comments:

Approved by member vote 10 FEB 14. PGV

Part 2

ADDITIONAL DTEB DATA MAINTENANCE WORK REQUEST INFORMATION

DATE SUBMITTED: 01/22/2014

DM NUMBER: 1131

ITEM 1: DEVELOPMENT HISTORY

01/23/2014 07:59:59 Mr. Gordon M. Allbritton - USAF/CMOS - Approve :

01/23/2014 08:08:13 Ms. Edith L. Winters - SDDC/GFM - Abstain (no impact) : Although GFM does not exchange EDI 856 transactions, we concur with this DM since it is in line with the 858R.

01/23/2014 09:54:13 Mr. Craig R. Matlock - Air Mobility Command - Approve : Air GATES Approves this DM

01/24/2014 10:39:39 Mr. Wayne A. Howard - Defense Logistics Agency - Approve :
02/03/2014 11:50:25 Mr. Emmet G. Lung - USTC - Approve - with comments : If this is approved, there should be a comment added to the segment element to note that: If the CAGE+PN data is intended for use in DLMS systems or documents (e.g. DD Form 1348-1A) or in a MILS TCMD format (DI T_6), the field length is limited to 13 characters.
02/03/2014 13:44:39 Ms. Sherry M. Verdu - SDDC - Abstain (no impact) :
02/03/2014 15:27:51 Mr. Bret D. Cain - USTC/IGC - Abstain (no impact) :
02/05/2014 11:46:55 Ms. Heidi M. Daverede - DLMSO - Abstain (no impact) : Since the 856A DTEB IC indicates the REF02 is mapped to rp 7-19 of the CDF, we suggest the DM be updated to include a new user note that says, "Note that if the 856A is transformed to a legacy CDF transaction, data conveyed in the REF02 that exceeds 13 characters in length may be truncated to only 13 characters (rp 7-19) in the resulting CDF. Of note, we did an inquiry at DLA Transaction Services and confirmed that as of today there are no transformations of the inbound 856A to outbound CDP/CDF. But, in the event that requirement arises in the future, it is important to add the note for clarity/impact.

ITEM 2: DISPOSITION: (Identify the status of the DM request.)

Final Status: Approved
