ITEM 3: PROPOSED WORK Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Change	Description:

At index 3-01 in the G6101, DE 366, remove note stating: "Booking contact is the Ocean Cargo Clearance Authority at Ft. Eustis, VA. Enter Code Value 'IC' to comply with X12 syntax. CHANGE NOTE: Modify user note per DM 744". Add new DoD definition to the code value 'IC' that reads: "Use 'IC' to denote Booking Contact".

ITEM 4: REASON FOR CHANGE (business case) Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satified by a change to the convention. Technical assessment requires enought information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

The note talks to Ft. Eustis which is no longer relevant. Adding the note "use "IC" to denote Booking Contact follows the normal structure used by the DTEB. Only the notes are changing here and there should be no coding changes based on this.
