Type DoD EDI (C)onvention	TITLE: DTEB 220.D.004010 3RD PARTY LOGISTICS TRANSPORTATION SERVICE RESPONSE VERSION 0

ITEM 3: PROPOSED WORK

Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Change	Description:

Change the DOD attributes of the NTE segment at index [6] from Mandatory to Conditional. Change the segment condition note that reads: "Use this segment to indicate the rate structure applied under the DFTS contract. Use of this segment is required for all DFTS transportation service responses." to read: "SEGMENT CONDITION: Use this segment to indicate the rate structure requested under the DFTS contract. Use of this segment is required for all DFTS transportation service responses except those transported by rail."

ITEM 4: REASON FOR CHANGE (business case)
Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satified by a change to the convention. Technical assessment requires enought information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.
Based on feedback from the DFTS PMO shipments moving via rail are not subject to the 3 tier pricing structure under DFTS. This makes the 'Mandatory' usage requirement inapplicable to shipment moving via that mode.
