ACTION: Change	Description:	
At index 127 of the L0 segment, modify usage note to change from "Shipper systems do not need to provide the Dimensional Weight" to "Shipper systems must provide the Dimensional Weight."		
ITEM 4: REASON FOR CHANGE (business case)		
Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.		
Dimensional weight is critical to commercial air shipments as the Rated Weight is the greater of the two weights (dimensional and actual) so passing the dimensional weight should be mandatory for all commercial air shipments. This means the L004, L005, and L011 will be mandatory for shipper systems to complete.
