

## USTRANSCOM Science and Technology

### OVERSIGHT

**Project Summary:** The OVERSIGHT project will provide continuous tracking of adversary cyber groups and their campaigns upon USTRANSCOM enterprise and its partners (commercial or otherwise). This will allow Task Force Pacific (TF-P), USTRANSCOM, and US Cyber Command (USCC) to protect, preempt, and defend against interference with the logistics enterprise. OVERSIGHT will enable this by bringing together Grey-space analytics, along with USTRANSCOM enterprise data, to identify interactions between adversary cyber infrastructure and sensitive networks.

#### **Benefit:**

A capability that DoD organizations can use to detect, track, and identify adversary cyber groups, and to protect its own cyber infrastructure.

**Duration of project:** FY22 – FY24

**Participants:** Task Force Pacific, DARPA, SCO, USTRANSCOM

**Project advocacy (funding or otherwise):** INDOPACOM J4
