

# INTERNSHIP

# PREMIER COLLEGE INTERN PROGRAM (PCIP)

**AIR FORCE CIVILIAN SERVICE (AFCS)**

**PAID INTERNSHIPS PROVIDE YOU WITH  
SOMETHING OFTEN MISSING FROM OTHER  
PROGRAMS: A FUTURE**

When choosing a college internship, it's wise to keep your eye on the future. Will the experience give you the tools and expertise you'll need in your future career? Will you be engaged in and making meaningful contributions to real world-projects?

With an AFCS internship, not only will you be able to answer affirmative to the above, but it provides you with something other internships don't: a rewarding career upon successful completion of the program.

*Together, we deliver.*

AFCS' full-time PCIP for college juniors prepares you for a number of promising career fields within AFCS, including Science and Engineering, Cybersecurity, IT, Acquisition, and other mission-critical specialty positions. All told, 500 internships in 45 locations across America will be awarded to students who qualify. Some of our career fields even offer a sign-on bonus.

Over the 10 to 12-week paid summer internship, you'll work side by side with current AFCS and military professionals, gaining invaluable hands-on experience making tangible contributions to real-world projects in support of the U.S. Air Force and its critical mission.

Following college graduation and completion of PCIP, you may qualify for a full-time, paid position within one of AFCS' comprehensive training programs, where you'll further hone and develop your expertise and specialized skillsets through either PALACE Acquire (PAQ), preparing students for a wide range of careers from Science and Engineering to Cyber and IT, or Copper Cap (COP), readying students to become Contract (procurement) Specialists.

Once the program is successfully completed, you'll be placed into a professional-level position at AFCS, where you'll receive federal health and retirement benefits, 100% tuition assistance toward a graduate degree while in the PAQ Program, repayment of student loans for those who qualify, and a generous Recruitment Bonus for certain positions.

## **QUALIFICATIONS & ELIGIBILITY**

U.S. citizenship required

Full-time undergraduate student (junior) or graduate student enrolled in an accredited college or university
