ACQUISITION SPRING PROCUREMENT FORECAST

Program Title: Defense Courier Service (DCS)

NAICS: 481111

Description: Defense Courier Division (DCD) requires air transportation via commercial scheduled service routes to augment its global transportation network. The DCD will use a system of travel and recovery couriers to monitor courier material transported over commercial air routes. Two Department of Defense (DoD) travel couriers will transport material to planeside and monitor the material until it is loaded and aircraft doors are sealed. The DoD travel couriers will board the aircraft transporting the material. Two DoD recovery couriers will be escorted at destination to pre-stage and meet inbound aircraft planeside to observe the aircraft cargo doors being unsealed and material offloading. Recovery couriers will accept the material planeside and conduct a piece count. The contractor will provide passenger seats for two (2) travel couriers with personal carry-on baggage and cargo space for containerized and/or loose loaded courier materials as described in this PWS. Service will be within the Continental United States (CONUS) and between CONUS and Alaska and Hawaii.

Program Title: Atlantic Undersea Test and Evaluation Center (AUTEC) Chartered Passenger Air Transportation Services

NAICS: 481211

Description: The contractor shall provide air transportation capable of moving at minimum fifteen (15), and maximum of nineteen (19) passengers and baggage in 1.25 hours or less between Palm Beach International Airport, FL (KPBI), and Andros Town/Fresh Creek International Airport, Bahamas (MYAF). The contractor shall perform between ten (10) and twelve (12) round-trips flights per week, typically Monday through Friday. Air transportation services are for passengers and baggage movement between KPBI and MYAF, in accordance with this PWS and daily schedule. Additional missions between these locations may be required mid-day during the week, weekends and holidays and will be scheduled by mutual agreement. Table 1 below displays daily schedule which is subject to change. Variations to the times of this schedule may be proposed for efficiency or effectiveness but shall not normally reduce the total number of flights per day.

ACQUISITION SPRING PROCUREMENT FORECAST

Program Title: Pt Mugu Air Passenger Shuttle

NAICS: 481211

Description: The primary goal of this acquisition is to establish a cost-effective approach for providing long-term (one base year plus four one-year options), dedicated air shuttle services for Naval Air Warfare Center Weapons Division (NAWCWD) personnel to travel between mission areas located at SNI, Point Mugu and China Lake facilities. The Government is interested in solutions utilizing FAR Part 135 Aircraft, but will also consider the utilization of FAR Part 121 Aircraft if an economical solution can be found. The Government is seeking proposed solutions to achieve the objective flight operations identified below, including identification of aircraft, scheduling availability, air crew staffing and optimal basing location to achieve operational and cost efficiencies. Except as otherwise stated, the contractor shall provide all personnel, equipment, tools, materials, supervision, and other items and services necessary to perform air transportation services for passenger movement.
