**CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, RESTRICTION**

It is extremely important to forward in advance and to attach to the #1 container all relevant shipping documents; (i.e., Commercial Bill of Lading, Government Bill of Lading, and Packing list). These procedures are required by the Government of Bahrain and are used to facilitate the Bahrain customs clearance process. This document package allows the Bahrain Customs inspectors to determine if the shipment should be more closely inspected. Shipments without proper documentation are normally opened with all inner containers either being opened or x-rayed causing extensive delays, excess costs, and increased possibility of damage and pilferage. Please refer the below site for further information on Bahrain Customs Regulations (<http://www.bahraincustoms.gov.bh/customs/en/home.htm>) INBOUND/OUTBOUND: DO NOT ship uniform swords, military/professional gears, handheld radios, bullet vest, handcuffs, live ammunitions, fire arms, military knives, empty bullet shells & magazines etc. in any Coded shipments. All mentioned items will be confiscated by the Bahrain Customs upon arrival at the port of entry in Bahrain and the owner of the shipment will be prosecuted in accordance with the law of Bahrain. Remote controlled toys: chopper, planes, etc.; Military toys: pellet guns, rubber guns, paintball guns, etc., are PROHIBITED in Bahrain.

**OVERSIZED FURNITURE**

Most homes in Bahrain are fully-furnished; complete home appliances & amenities are provided in most Flats & Villas. Anyone moving to Bahrain should seek the advice from their sponsor when determining suitable furniture. Bahrain PPSO has no NTS facility. Any HHG inbound shipment that needs storage will be at the members expense. Only SIT (Stored-in-Transit) is available if members is unable to receive his/her goods due to TDYs or still in house-hunting. SIT is only for 90 days.

#### **Weapons and Prohibited ITEMS**

Any type of weapon to include Uniformed Swords is prohibited from being shipped to Bahrain. Examples of confiscated items include, Sex toys, nudity magazines, DVDs, ammunition, empty casings, plaques with knives incased, knives, body armor, holsters, magazines, remote control helicopters, handcuffs, poker chips, gaming devices, toy guns, starter pistols, paint guns. Any other items, whose importation is prohibited under Kingdom of Bahrain Customs laws, or any other laws of the Country. It is highly recommended to place questionable item in Nontemporary Storage. Items confiscated by host nation customs, members/employees will receive a custody confiscation receipt from the local delivery agent. If the member/employee would like to retrieve the confiscated item/s it is their responsibility to contact the Ministry of Interior to determine if the item will be released. Prohibited items include, but not limited to WEAPONS and PARTS OF WEAPONS, IMITATIONS OF WEAPONS, MILITARY WIRELESS DEVICES, UNIFORM SWORDS, PORNOGRAPHIC MATERIALS/EQUIPMENTS etc. Please refer the below given web site for further information on Bahrain Customs Regulations (<http://www.bahraincustoms.gov.bh/customs/en/home.htm>)

#### **POV License Plates**

Local Bahraini Customs Agents are confiscating all foreign license plates from inbound POVs at the Port of Khalifa, Bahrain. All license plates should be returned to service members prior to shipping a POV to the Kingdom of Bahrain. Packing license plates in the vehicle accessory box is PROHIBITED to the Kingdom of Bahrain.

#### **POV Inspections**

POV will be inspected by local traffic directorate for compliance and thus requires registration according to Bahrain traffic law. (1) Tinted windows: Local motor law allows the importation of vehicles with FACTORY TINTED windows. Vehicles cannot be registered unless the windshield and front side windows allow at least 70% of light to pass through. The front windshield may have a sun strip as long as it is the original manufactured windshield. All windows behind the front driver and passenger side windows can be tinted as long as it is FACTORY TINTED windows. The amount of tinting for windows behind the driver and passenger side windows was not address by the Kingdom of Bahrain with the exception of them needing to be FACTORY TINTED. After market tinting is not allowed. (2) Right handed steering wheel: Vehicle with right-handed steering wheel (right hand driven) is not permitted. (3) Paint/scratches/dents: Vehicles with badly faded paint, dents, widely visible scratches, rust, or any other damage will not pass inspection. Normal dings and scratches are acceptable. Loose or hanging body parts are not acceptable. Major body damage or twisted and bent frame is not acceptable. Cars and motorbikes decorated with flat matt paint or matt vinyl wrapping will no longer be allowed on Bahrain's roads due to safety concerns. Part of a GCC-wide ban on non-glossy paint jobs, agreed at an Interior Ministers' summit held in Kuwait in November 2015, the move will see owners of vehicles decorated in such a fashion unable to renew their vehicle registrations at the General Directorate of Traffic. Owners should maintain the original appearance of the car and refrain from matt painting their vehicles, said a source from the General Directorate of Traffic. All car and motorcycle importers must refrain from importing matt-colored vehicles, the 'matt ban' decision was made before Bahrain's tough new traffic law, which dramatically increased fines and jail terms for various offences. (4) Tires: All tires will be in good condition. Tires extending partially beyond the fender are prohibited. (5) Lights: All installed lights must be operational. Headlights cannot be modified. Taillight or a separate light must illuminate rear license plate. Backup lights must function when transmission is engaged in reverse gear. Vehicles must be equipped with directional signals. Roof rack light systems are prohibited. (6) Windshield Wipers: Must be operational. (7) Brakes: Vehicle must have two separate means of applying brakes. Failure of one braking system will fail registration. (8) Color: There are no restrictions as to color. However, no weird painting or art on vehicle is permitted. Stickers, drawings, advertisements, or writing on the vehicle are not allowed. (9) Exhaust System: Faulty or excessively loud exhaust systems are prohibited. (10) Salvaged vehicles as stated on the certificate of title are not permitted. (11) After market hydraulic systems are prohibited. (12) Other: Vehicles must meet operational and safety standards. Missing fenders, broken windows, missing side view mirrors, and improper wheel alignment (wheels that cannot be turned from full right to left without jamming or rubbing part of the vehicle) will not be accepted. (13) Any aftermarket fitting or additional fitting is prohibited. If you have any questions, please consult with Bahrain VPC at [customerservice@ial.us](mailto:customerservice@ial.us) or PPSO at [ppso-bahrain@me.navy.mil](mailto:ppso-bahrain@me.navy.mil) prior to shipping to Bahrain. Vehicles WILL NOT pass for safety inspection if replacement or modification on engines has been performed. (Example: if there was a V8 engine in a V6 car)

#### **VISA and CPR CARD - Key to Picking-up POV**

All POVs are required to be registered with the government of Bahrain prior to being picked up from the VPC. Before members/employees can register their vehicles they must obtain their VISA and CPR Card. Country VISAs are applied for once the member/employee arrives in country and requires a GOVERNMENT PASSPORT, NOT THE TOURIST. Once the VISA is received the member/employee will then apply for their CPR Card. A CPR Card is a personal identification number issued by the Kingdom of Bahrain to all personnel assigned to NSA Bahrain. It will take approximately one month to receive both VISA and CPR. Both documents are processed by the Base Immigration Office, therefore It is imperative that members/employees apply for their VISA as soon as they arrive on Station. Vehicles left at the VPC for more than 20 days are subject to storage fees borne by the member.

#### **NAVY Members Pay Grade E4/below:**

Counselors are cautioned to thoroughly advise the Navy Members with pay grade of E4 and below serving an unaccompanied tour that it is highly recommended to ship Unaccompanied Baggage (UB) Shipment (600 lbs) as living quarters are on space limited base, and barracks are fully furnished and no storage facilities exist.

APOE: AMC Terminal, Aviation Unit, Bahrain, BA-BAH APOD: AMC Terminal, Aviation Unit, Bahrain, BA-BAH WPOE: Mina Sulman Port, Port Bahrain, BA-PK3 WPOD: Mina Sulman Port, Port Bahrain, BA-PK3

#### **POV Prohibited**

Electric cars are restricted in Bahrain due to the complete lack of charging stations. The local Ministry of the Interior defines a motor vehicle as either automobile or motorcycle/mopeds/dirt bikes with engine power exceeding 1.5 HP and engine size exceeding 100 cc. Shipping Motorcycle/Mopeds/Dirt Bikes/Quad Bikes under 100 cc to Bahrain are PROHIBITED

#### **POVs Older than 5 years of Age**

Effective 1 May 2016, all vehicles shipped to Bahrain older than 5 years of age will have to be exported when the member departs the island. Vehicles shipped under this exemption will not be allowed to be re-registered if sold to another party. Furthermore members are advised before they purchase a vehicle in Bahrain to make sure the vehicle was shipped prior to the exemption date to ensure that it can be registered.

**POV Diesel Fuel**

The Island of Bahrain does not have Ultra Low Sulfur Diesel, Diesel fuel in Bahrain is 500ppm.

**POV Authorization**

Authorized DOD personnel may import free of duty no more than one privately-owned vehicle for personal use of the member/employee. #### Through Government Bill of Lading Household Goods

See consignment instructions under Special Instructions Notes 1, 2 and 3. Destination city must show RIYADH (AR RIYAD). Consign to USMTM/J4 TMO, Riyadh, Kingdom of Saudi Arabia, care of Destination Carrier Agency, marked for member and unit of assignment. All personal property must be shipped to King Khalid International Airport (airport code RUH), Riyadh, Kingdom of Saudi Arabia.

#### High Value Personal Property

NO SPECIAL INSTRUCTIONS

**Parcel Post Personal Property**

Do not consign to USMTM/J4 TMO or GBLOC SWAP; consign to member or member's agent care of local address or unit of assignment. Member should be briefed over guidance in the JTR, paragraphs 5210-D5c (uniformed members) or 5656-C2b (civilian employees).

**Special Instructions****Unaccompanied Baggage (UB) To and From CONUS Locations**

Unaccompanied Baggage (UB) To and From CONUS Locations Shipments will be processed as a Code 8 One-Time-Only in ETOPS. Destination city must show RIYADH (AR RIYAD).

**Household Goods (HHG) To and From CONUS Locations**

Household Goods (HHG) To and From CONUS Locations Shipments will be processed as Code 6 One-Time-Only (OTO) in DPS. Destination city must show RIYADH (AR RIYAD).

**Passport and Visa Requirements**

All personnel must have a valid Diplomatic or Official Passport and Saudi Arabian visa and be in country before their personal property can be cleared through Saudi customs.

**Shipment Recommendations**

Members should be counseled that, realistically, they only need to ship HHG or UB, but not both, due to the transit times being the same for each shipment. See Saudi Arabia Country instructions for more shipment guidance, to include information on size of quarters.

**Shipment Transit Times and Required Delivery Dates (RDD)**

Saudi Arabia does not have standard transit times published in the DTR. All HHG and UB shipments, regardless of origin, should be given 30 days transit time from date of pickup. RDD should not fall on a Friday, Saturday, or any US or Saudi holidays as listed in the PPCIG or the US Embassy Riyadh Holiday Schedule.

**Do Not Ship Via Surface Modes**

Do not send any personal property shipments by surface mode (ocean carrier/water transport). This will cause extensive delays through customs. All shipments consigned to GBLOC SWAP should be shipped via commercial air, either via code 6 (HHG) or code 8 (UB). See previous notes for additional information.

**Consignment Instructions**

All shipments must be consigned to USMTM/J4 TMO, Riyadh, Kingdom of Saudi Arabia, care of Destination Carrier Agency, marked for member and unit of assignment. All personal property must be shipped to King Khalid International Airport (airport code RUH), Riyadh, Kingdom of Saudi Arabia.

**Units and Personnel Sponsored by GBLOC SWAP**

ALL personnel assigned to Eskan Village, USMTM, OPM-SANG, MOI-MAG, MIPF-TAG, DCAA, DCMA, and all other organizations within Saudi Arabia, with the exception of personnel assigned to US Embassies or Consulates. Member should know their unit of assignment. Please contact us if you are unsure.

**Packing/Crating Requirements**

Commercial air shipments into King Khalid International Airport (airport code: RUH) must not exceed 148 cubic feet and 200 pounds gross per container to avoid severe damage to the member's personal property shipment. Provide crating instructions to local agent/contractor.

**Items Prohibited By Saudi Customs**

Members should be briefed not to ship alcohol, religious items contrary to the Islamic faith (such as Christmas trees), pornographic or R-rated movies/DVDs/Blu-rays/videos, anything that contains nudity, pork products, prescription drugs without clear labels, and certain types of military gear, such as weapons, weapon accessories like magazines and scopes, night vision goggles, handcuffs, body armor, canteens, and other gear of this nature. Saudi Arabian Customs may confiscate these items and hold the member's shipment until the member pays the non-reimbursable customs fees. USMTM is currently working to formally allow shipment of military gear items with Saudi customs, but this is a long process.

### NOTE: Importation of Motor Vehicles/Motorcycles/Mopeds

1. Authorized members may ship up to three motor vehicles duty free; however, all three vehicles must be registered with the base to clear customs duty free. Vehicle Registration policy restricts the sponsor to a maximum of three registered motor vehicles including motorcycles. If a sponsor ships three motor vehicles and purchases a motor vehicle upon arrival, he/she will only be able to register two of the three motor vehicles shipped; thus requiring the sponsor to pay import duty on one of the shipped motor vehicles. 2. All street legal motorcycles, shipped with HHG must be licensed and registered with the motor vehicle registration office prior clearing customs. Plates will be not issued for those less than 50 cc. The importation of Mopeds/Scooters or similar vehicles with less than 50cc are highly discouraged due to complex restrictions for registration and the need to convert them to European Specifications. Cost to convert depends upon the work necessary to convert the moped, but could be over £200. 3. To operate any motorcycle or other two wheeled vehicles the registered owner/operator must be 18 years of age and have a motorcycle endorsement on the stateside license. Also before registration and licensing all individuals must show evidence of successfully completing an approved motorcycle safety course. 4. To effectively clear customs by local port officials, all mopeds/motorcycles shipped with HHG must be packed in a separate container (Container # 1) a. Crate must be properly marked on the outside of the crate that this shipments contains a motorcycle/moped b. Government Bill Of Lading, Block 25, THIS SHIPMENT CONSISTS OF ONE LOT OF HOUSEHOLD GOODS AND MOTORCYCLE (TYPE, VIN NUMBER, MAKE, MODEL AND YEAR). c. Inventory must include: Type, Year, Make and VIN of Moped and Serial/Chassis Number. d. Transportation Control and Movement Document (TCMD): Type, Year, Make and VIN of Motorcycle/Moped, and Serial/Chassis Number 5. Carrier Must Ensure the following: a. Inventory is properly prepared b. GBL is annotated with the motorcycle. c. A copy of the title/registration, the member's orders, GBL and inventory regardless on destination must be sent to Personal Property Shipping Office, Attn: Motorcycle Clearance, PSC 808 Box 42 FPO AE09618. d. Failure to comply with this requirement could result in the return of the motorcycle/moped, confiscation by Italian Customs Authority, fine or penalty and paid of importation fees.

Importation of ATVs, Three-Wheelers, off-road motorcycles and Mopeds less than 50ccs is highly discouraged due to Italian customs importation and registrations issues. Off-road vehicles do not enter Italy duty free because they cannot be registered with the base. Shipping an off road vehicles (Motorcycles/Quads/ATV's etc.) to Aviano AB, will require the owner to pay an import duty prior to the vehicle clearing customs. The import duty cost varies depending upon the vehicle. Example: 250cc dirt bike estimate £280. Exportation of ATV, Three-Wheelers, off-road motorcycles and Mopeds; Member needs provide stateside documents and proof of importation to Aviano AB PPSO. NOTE: When using ITGBL, it is "HIGHLY RECOMMENDED" that destination services are handled by local moving agents with approved access to the Base to avoid inconveniences and delays. Spanish Customs officers review sign and close the Customs Form 302 for Intra-theater shipments coming by truck inside the Base. Spanish or US citizens requiring base access must provide IDs/passport and a valid working insurance policy to the Base Security Office at least five days prior access is required. Third Country Nationals are not allowed to enter US NAVSTA Rota, Spain without proper clearance from ODC/MAAG in Madrid. Access request must be forwarded to ODC/MAAG at least three weeks prior to the desired entry date. You must contact ODC Madrid Attn: Clearance NCO via FAX 011-34-549-7040 or via email "eucom.stuttgart.ecj5-8.mbx.odc-spain-clearances@mail.mil" for additional info on required approval documentation. Note: copies of passports/ids and a valid working insurance policy will be required, among others.

#### **IMPORTATION RESTRICTIONS**

FOR US MILITARY and DOD civilians under the Agreement of Defense Cooperation (ADC). As per ADC between the USA and the Kingdom of Spain, importation of personal effects for the exclusive use of the member or employee or their family MUST BE IMPORTED in SPAIN within SIX Months of member or employee initial arrival or within SIX Months after an additional command sponsored dependent joins the member to be eligible for DUTY FREE importation. ----- ONLY for US MILITARY and DOD civilians under the NATO Agreement assigned to NATO JHQ SW MADRID and NATO NRDC VALENCIA and ALBACETE : As per NATO agreement DUTY FREE import of personal effects to SPAIN can happen at any time during member's assignment to SPAIN.

#### **AERIAL and WATER PORTS of EMBARKATION and DEBARKATION:**

APOE: RTA; APOD: RTA; WPOE: KJ6 (Algeciras, SP - primary) and KJ1 (Cadiz, SP - alternate); WPOD: KJ6 (Algeciras, SP - primary) and KJ1 (Cadiz, SP - alternate).

#### **SHIPMENTS FROM BAHRAIN, DJIBOUTI, NAPLES, SIGONELLA & SOUDA BAY:**

Due to existing Air Mobility Command airlift Channels between the above installations Air Terminals and the Air Terminal at Rota (RTA), it is highly recommended to maximize opportune airlift of HHGs shipments as DPM or Code T/TP-4 (Space Available). If TP-4 opportune airlift is NOT available due to lack of TP-4 capacity, then use standard Code 4, or One-Time-Only (OTO) Code 4. However, request and direct all Code 4 routing through the WPOD (KJ6) Algeciras, Spain. A customs Liaison is available at Algeciras (KJ6) to facilitate customs clearance on inbound DOD sponsored shipments to Spain. Do NOT use other WPODs such as Barcelona or Valencia in Spain due to possibility of extensive delays coordinating clearance with Spanish Customs (Aduanas) without customs liaison representation at those ports.

#### **HHGs SHIPMENTS FROM GUANTANAMO AND DIEGO GARCIA:**

Due to existing Air Mobility Command airlift Channel between Air Terminal, Norfolk (NGU) and Naval Air Station, Rota (RTA), recommend HHGs shipments from GUANTANAMO (NBW) to Rota (RTA) be routed as DPM or Code T/TP-4 (Space Available), via Air Terminal, Norfolk (NGU). If available, HHG shipments from DIEGO GARCIA (NKW) to Rota (RTA) should be routed as DPM or Code T/TP-4 (Space Available), via Air Terminal Bahrain (BAH). If TP-4 opportune airlift is NOT available through Bahrain (BAH) due to lack of TP-4 capacity, use standard Code 4, or One-Time-Only (OTO) Code 4. However, request and direct all Code 4 routing through the WPOD of (KJ6) Algeciras, Spain. A customs Liaison is available at Algeciras (KJ6) to facilitate customs clearance on inbound DoD sponsored shipments. Do NOT use other WPODs such as Barcelona or Valencia in Spain due to possibility of extensive delays coordinating clearance with Spanish Customs (Aduanas) without customs liaison representation at those ports.

## Special Instructions

### NOTE 2

Avoid Delayed or Misconsigned Shipments: In order to expedite the in-country movement of Turkey shipments, the AF Air Clearance Authority will no longer approve Turkey destined shipments without complete and specific ATCMD information. If shipments are sent to the APOE without clearance, the shipment will be frustrated until proper documentation can be obtained. All inbound shipments must be consigned to the appropriate destination city or duty station. Use Note 4 to determine correct destination city for Block 18 of the GBL. For TOPS generated shipments, it is imperative that the delivery

city field contains the customer's actual duty station, location or city/country name. This will ensure the correct destination of the shipment is printed in Block 18 of the GBL. For separation or retirement shipments (refer to Country Instructions for customer counseling and direction), Block 18 must also include the numerical postal code for the destination city/country.

### NOTE 3 SPECIAL INSTRUCTIONS

All UB should be shipped via Code J or DPM/AMC as an alternate code. If these are not available and the only other option is Code 8, the following instructions apply: Code 8 UB shipments destined for Izmir, Turkey: Should be consigned to Izmir, DODAAC FB5531. They should be addressed/sent to Izmir Int'l Airport (ADB) through Istanbul/Ankara airports. UB arriving at Istanbul or Ankara airports are being diverted to Izmir in-transit + customs process takes approximately 2 to 3 weeks to complete, this causes extreme hardship on members. Shipments originating in Europe should be sent directly to Izmir. Further, commercial shipments should be used as a last resort due to the customs process in Turkey.

### NOTE 4

APO Listing by PPPO. Instruct all customers to contact their servicing PPPO immediately upon arrival at their new duty station. Please provide customers the PPPO inbound phone numbers furnished below in lieu of the inbound number printed by TOPS in the remarks block, DD 1299. ### RELOCATION OF DEPENDENTS

Military and DoD Civilians should not relocate dependents to Turkey for a follow-on location assignment until they have PCS/NATO orders. Dependents will not be covered under the NATO-SOFA agreement and will not be able to receive a NATO Beyanname to clear Turkish Customs. Members who send their dependents to Turkey without being assigned to Turkey and do not have NATO orders will be responsible for HHG/Vehicle shipment, customs broker, customs fees, and duties even if their dependents are Turkish citizens. Personal property offices should not process a DD Form 1299 for members unless the member has PCS/NATO orders to Turkey.

#### **Note 6. SHIPMENT OF MOTORCYCLES INTO ITALY GBLOC: WKAS**

The following guidance is provided to assist with shipment of motorcycles into Italy for GBLOC: WKAS area of responsibility (Vicenza and Livorno). Motorcycles may be shipped as Household Goods but must be packed in a separate container and listed on the inventory with make, model and chassis number in addition block 27 on the PPGBL and/or the TCMD must identify the make model and chassis number, (example: THIS SHIPMENT CONSISTS OF ONE LOT OF HOUSEHOLD GOODS WITH A 1984 HONDA 750CC MOTORCYCLE CHASSIS/SERIAL NUMBER JT2AM21). When the origin installation fails to give destination prior notification of shipments with a motorcycle, major problems with the Italian Customs Authority can occur. A COPY OF THE ORDERS MUST BE IN THE ADVANCED PACKAGE TO THE TSP, OTHERWISE THE MOTORCYCLE CANNOT BE CUSTOMS CLEARED. Failure to properly import the motorcycle is a violation of Italian Law and requires a formal letter of explanation to the customs office on why the motorcycle was not cleared properly and request clearance after the fact. Italian customs has authority to fine the US Government, the member, and/or confiscate the motorcycle. All of this is still possible even after the fact due to approval not being guaranteed. Prior notification by the origin PPPO will prevent these problems. For questions please contact GBLOC: WKAS, Inbound Branch usarmy.rheinland-pfalz.405-afsb.mbx.basops-t-inbound@mail.mil Origin PPPO must have the member provide a clear and legible copy of the title and registration to their office. If the title is held by a lien holder, customs MAY accept a letter from the lien holder authorizing the motorcycle to be exported, although there is no guarantee that customs will accept such a letter but the member still needs to provide it. Without the title and registration or letter from lien holder, the member may be subject to duties, taxes, as well as, having to finalize customs and register their motorcycle on their own: Origin PPPO will provide the copies of the paperwork to the TSP so they can forward the paperwork to their Italy agent prior to arrival of the motorcycle in Italy: TSP responsibility - The ocean bill of lading (OBL) must list the motorcycle, VIN number, make, and model (it will be up to the TSPs to instruct their CONUS port agents accordingly). Italian customs requires motorcycles to be cleared at final destination rather than at the port of entry. NOTE: Motorcycles will be moved from the Italian port of entry to destination on a requested AE Form 302 issued by GBLOC: WKAS. In order to prepare the AE Form 302, the above-mentioned information must be noted on the GBL, inventory and OBL. Shipments being custom cleared will require 2 (two) AE Form 302 request from the TSP (1 for household goods and 1 for motorcycles). If this information is not available, the motorcycle container and household goods containers will be delayed pending customs clearance at the port. Upon arrival at final destination, customs will require copies of the title and registration. NOTE: These requirements do not apply to off-road bikes (dirt bikes), as they do not have to be registered in Italy. If off-road bikes are declared on the GBL and inventory document as motorcycle and not dirt bike, this will cause major problems and delays in the customs clearance process.

#### **Vehicle Importation**

Following is important information on the import of vehicles to Peru. a) Restrictions: Importation of vehicles more than 5 years old, vans with more than 9 passenger capacity, pick up trucks and motorcycles are not authorized to be imported into Peru. Diplomats with the rank of Minister Counselor; Counselor; Attaches; Military, Naval, Air and Police Attaches; Consul General and Director of International Organizations, First, Second and Third secretaries; Consuls; Vice Consuls; Assistant Attaches; Military, Naval, Air and Police Assistant Attaches: may import duty free one vehicle every three years. Administrative and technical staff may import one vehicle only which must be imported within six (6) months after the member has arrived in country and is accredited to the Ministry of Foreign Affairs (MFA). b) Documents and information required for the customs clearance: All personnel bringing a vehicle to post must provide Customs & Shipping Unit copy of vehicles commercial invoice or bill of sale and copy of the certificate of title. The following vehicle information is required: Make, model, manufacture and model year, VIN, engine number, number of cylinders, color, capacity of engine in liters or cubic centimeters. The engine number is very important for the customs clearance, as this information is not usually mentioned in the vehicle documents. Post strongly recommends employees obtain the engine number of their vehicles through a car dealer. The customs clearance of a vehicle takes approximately 5 weeks, after it arrives at the port of Callao. However, if the engine number provided by the employee is not correct, the customs clearance will take more than two months and the cost of correction to the shipping documents or customs manifest may be charged to the employee. Obtaining the license plates takes two weeks approximately after the vehicle is cleared out of customs. Remove pilferable items before shipment. Theft of windshield wipers, floor mats, radios, etc., occurs. It is a good idea to have a locking gas cap. Vehicles imported duty free by accredited employees can be sold locally tax-free after the vehicle has been three years in country. If the employee is transferred or finishes his official tour before three years, he/she will need to pay the import taxes for the remaining time to complete the three-year period. That amount will be calculated by the MFA dividing the import taxes by thirty-six (36), and the result will be multiplied by the number of months remaining to complete the three year-period. If an employee arrives in Peru with travel authorization for two years of duty only and is accredited accordingly to the Peruvian Ministry of Foreign Affairs (MFA), he/she can sell the vehicle tax free at the end of his/her official tour. But for this two-year exception to apply the employee's tour must end without fail in exactly two years and the vehicle must have been imported within 6 months after the employee has been accredited to the GOP. Otherwise, the three-year rule applies. If you require additional information regarding the importation of POVs, please contact Mr. Edmundo Sarmiento, C&S Supervisor, telephone (511)618-2607, Email: sarmientea@state.gov or Flavio Palomino, telephone (511)618-2194, Email: palominofp@state.gov. Parking spaces are small and garage doors tend to be no higher than 68 inches. Personally owned vehicles with height greater than 68 inches must not be shipped to Post without prior Post approval. If someone must ship a larger vehicle, they may have to be housed in an apartment building. Please contact Mrs. Cecilia Crisanto, telephone (511)618-2606, email: CrisantoCC@state.gov of housing office to verify if the vehicles height that you plan to bring to Post is accurate for the housing assigned to you.
