**Subject:** Code 2 Domestic Containerized Shipments Peak Season Criteria Extended to 14 Nov 2020

1. As referenced in our DP3 Peak Season message (USTRANSCOM PP Advisory #20-0085), the peak season criteria for selection of Code 2 shipments was to change to non peak season criteria on 1 October.
2. Effectively immediately, Code 2 peak season selection criteria have been extended through 14 Nov 2020 to match extended peak season rates, to deliver claims and customer satisfaction benefits to customers, and to help prepare for potentially higher than usual volumes into the Fall.
3. The criteria have not changed, just the effective dates as indicated below.
4. **Criteria for Selection of Code 2:** Shipments meeting **all** of these criteria should be considered as a candidate for Code 2.
  - 4.1. Shipments **without** a direct delivery address at the time of booking or where the customer requests the shipment be placed into SIT.
  - 4.2. **OR:** Shipments with a direct delivery address, however, the member's planned leave or a TDY in transit prevents acceptance of a direct delivery of the shipment at destination
  - 4.3. Shipments estimated at 10,000 pounds or less in Peak Season (15 May – 14 Nov) or 3,000 pounds or less in Non-Peak (15 Nov – 14 May)
