USTRANSCOM FUEL SURCHARGE (FSC) TABLE

2025 - 2026

1. Fuel Rate Adjustments (FRA) are based on the national average diesel fuel price as published on the first Monday of the month (or the first business day after a Monday if the Monday falls on a Federal holiday) by the Department of Energy (DOE), Energy Information Administration (EIA) located at: https://www.eia.gov/petroleum/gasdiesel

2. The adjustment for the corresponding shipping period is a result of comparing the EIA price with the USTRANSCOM Fuel Policy baseline identified in the 400NG and the International Tender (IT). This determines the applicability of a FRA. The Shipment Period column indicates the effective period of the specific rate adjustment. Shipments must be picked up during this period for the adjustment to apply.

3. The table below is to be used to determine the Fuel Related Rate Adjustment under the Personal Property Program and applies to the domestic interstate/intrastate movements (including Alaska) and the domestic line haul portion of international movements (including Alaska and Hawaii). Column 4 states the FRA for shipments subject to the **$3.50** baseline.
