

APPENDIX O

ROUTING GUIDE FOR INTERNATIONAL AIR TRAVEL ON UNITED STATES TRANSPORTATION COMMAND (USTRANSCOM)-CONTRACTED PATRIOT EXPRESS PASSENGER AIRLIFT

USTRANSCOM-contracted Patriot Express (PE) channel flights transport Department of Defense (DoD) passengers in full planeload lots. DoD policy mandates USTRANSCOM-contracted airlift (e.g., PE channel airlift) will be used in connection with international travel. See Chapter 103 for the DoD policy and procedures on the use of USTRANSCOM Patriot Express passenger travel. Flights operate internationally on a regular schedule between military and/or commercial air terminals. Reservations for passenger seats are made in the Air Mobility Command (AMC) Global Air Transportation Execution System (GATES) by official travel providers and DoD transportation offices.

This routing guide is not all inclusive of all routes serviced by AMC and was created primarily for routing Permanent Change of Station passengers. Refer to GATES for all routes serviced by AMC.
