A. GENERAL

The SEAVAN ownership code identifies the actual owner of a SEAVAN regardless of the ocean carrier that moves the SEAVAN. Since individual SEAVAN owners may use more than one code, the four-digit abbreviation actually marked on the SEAVAN is used on the documentation. If no abbreviation is marked on the SEAVAN, “XXXX” is used. The most current versions of the codes are available on the United States Transportation Command (USTRANSCOM) Reference Data Management System (TRDM) website at <https://trdmws.maf.ustranscom.mil/>. They are accessible by all users, to include Department of Defense contractors and vendors, through the Defense Transportation Electronic Business website at <https://www.ustranscom.mil/cmd/associated/dteb/> by clicking on “Reference Data”. If the code is not listed in TRDM or if the entry is XXXX, the shipper lists the clear text name of the SEAVAN owner in the last Transportation Control and Movement Document (TCMD) miscellaneous entry (DI T_9).
