NOTE 1: Only those scuba diving tanks containing not more than 25 pounds per square inch at 70 degrees Fahrenheit may be shipped as household goods or unaccompanied baggage. Servicing for shipment will include:

a. Written certification of purging serviced by dive shop or licensed individual qualified to perform purging. A tag or label must be affixed to the tank certifying service was performed.

b. Completely empty tank, remove the valve, and replace valve with plug designed for this purpose.

NOTE 2: Completely drain all fuel from engine power driven equipment. Drain equipment (motorcycle, moped, lawn mowers, boats, snowmobiles.) Run until engine stalls. Drain all oil and water. Allow the fuel tank and lines to remain open for 24 hours prior to pickup. Disconnect nonspillable gel-type batteries and tape the ends to prevent short circuit. Only nonspillable gel-type batteries are authorized. The batteries may remain in the equipment holder, but ensure they remain upright when packed in the shipping container. Batteries with acid or alkali are prohibited from shipment.
