APPENDIX L

TRANSIT TIMES FOR DOMESTIC – INTERNATIONAL TRANSIT TIME TABLES

The transit times were developed by the United States Transportation Command in coordination with the Service headquarters and industry and are based on actual transportation experience, capabilities, and schedules. These are the minimum times required for Transportation Service Providers (TSP) to move shipments from origin to destination and will be used to construct required delivery dates. However, sound traffic management principles, the needs of the member/employee, existing policies, and individual TSP capabilities will apply. The applicable Transit Times for Domestic – International Transit Time Tables is listed on the Defense Personal Property Program (DP3) System website at https://move.mil/sme. It can be found under “DP3 Business Rules and Regulations”.
