Our turn-key logistics solution provides the following benefits to our clients.

Carrier Negotiations and Contracting – **Bilal Associates** turn-key solution program includes all aspects of carrier negotiation and contract management for all transportation modes. We work only with the highest quality carriers who are pre-qualified through our Carrier Management and Development program. At the same time, we are able to offer competitive pricing by leveraging all our customers' shipping volumes and working with our core carriers to understand where each carrier can be the most competitive.

Mode Optimization - Our turn-key solution program uses all available transportation modes to find the most cost-effective way to meet our customers' needs. This includes LTL consolidations both within a given customer's freight and between different customers' freight. We have the resources and expertise to find the most cost-effective way to meet our customers' service needs.

Analysis and Reporting – **Bilal Associates** provides useful, informative reports daily, weekly, monthly, or as often as requested. Our experienced analyst team constantly reviews customer freight activity and trends to look for freight optimization and cost containment opportunities.

Expedite of Documentation/Approval Process – Our team of experienced personnel have long standing relationship with various government agencies that allow us to expedite the documentation/approval process. Our turn-key solution program allows customers to benefit from our relationship with agencies resulting in quick shipments and delivery of cargo.

International Freight Services- We have the resources within our Freight Management group to handle your international freight needs as well. Our global relationships allow us to negotiate the best possible pricing for our customers, while at the same time meeting the delivery service requirements.

Bounded Cargo Movement Facility – **Bilal Associates**, is also an authorized customs bounded carrier licensed by the Federal Government of Pakistan for the cargo movement between the port of Karachi and hinterland dry docks of Pakistan. There are 11 hinterland dry docks located at major cities of Pakistan. With the facility of bounded cargo movement, sealed cargo can be moved within these dry docks without the clearance of Pakistan customs.
