*Offerors shall enter Document (Doc) and Non-Document (Non-Doc) transit times (inclusive of customs processing). **Documents** are typically defined as written material or items of low value. **Non-Document items** are typically defined as non-written material (e.g., parts) with a higher value assigned to them. The commodity classification determines whether the item is a document or non-document.

If service is not provided for any item, the offeror shall leave the applicable cell blank.
