C.3. Foreign Flag Waiver Guidance. When it is determined use of a vessel of United States registry will not provide the required service, the contractor shall request permission to use a foreign flag vessel prior to start of movement, as follows:

C.3.1. Air shipments:

C.3.1.1. To assure compliance with the Fly America Act (49 USC 40118), air carriers and the contractor must complete and retain in their records the below self-certification when it is necessary to select a non U.S. Flag carrier for international air transportation.

C.3.1.2. When it is determined use of an aircraft of U.S. registry will not provide the required service during any segment of the routing to or from the U.S., the contractor will self-certify to use a foreign flag aircraft prior to start of the movement.

C.3.1.3. Air shipments moving between overseas areas are exempt from having to obtain a foreign flag certificate.

C.3.1.4. The following principles shall be followed in determining the availability of U.S. Flag air carrier: The first or last leg from and to the U.S. shall be by a U.S. Flag carrier. U.S. Flag air carrier service available at the point of origin shall be used to destination or, in the absence of direct or through service, to the furthest point on a commonly used air route. When an origin or interchange point is not serviced by a U.S. air carrier, foreign flag air service shall be used only to the nearest interchange point on a commonly used air route to connect with U.S. Flag air service.

C.3.2. Surface shipments:

C.3.2.1. The Secretary of Defense has approved the Voluntary Intermodal Sealift Agreement (VISA) as a sealift readiness program for the purpose of Section 909 of the Merchant Marine Act of 1936, as amended (46 App. U.S.C. 1248)

C.3.2.2. The Contractor must comply with the VISA priorities listed below for the ocean portion of the overall movement. For the purpose of this item, to allow VISA participants the first opportunity to directly meet DoD requirements, the underlying Ocean Bill of Lading (OBL) must be issued by a VISA participant.

C.3.2.2.1. U.S. Flag vessel capacity operated by a participant and U.S. Flag Vessel Sharing Agreement (VSA) capacity of a participant.

C.3.2.2.2. U.S. Flag vessel capacity operated by a non-participant.

C.3.2.2.3. Combination U.S./foreign flag vessel capacity operated by a participant and combination U.S./foreign flag VSA capacity of a participant.

C.3.2.2.4. Combination U.S./foreign flag vessel capacity operated by a non-participant.

C.3.2.2.5. U.S. owned or operated foreign flag vessel capacity and VSA capacity of a participant.

C.3.2.2.6. U.S. owned or operated foreign flag vessel capacity and VSA capacity of a non-participant.

C.3.2.2.7. Foreign-owned or operated foreign flag vessel capacity of a non-participant Ships registered under the laws of the United States must be used for the carriage of personal property (HHG, personal effects, or POVs) when such ships are available unless the necessity of the traveler's mission requires the use of a ship under a foreign flag.

C.3.2.3. An approval from the government, including control number for vessel or a Self-Certification Statement for air (see HHG Foreign Flag Waiver Request Form below) is required for the use of a foreign flag vessel/aircraft.

C.3.2.4. Use of foreign flag vessels is not authorized when the contractor, for its convenience, selects a port of loading where ocean transportation is available only by foreign flag vessel in lieu of a port customarily served by U.S. Flag vessels. If the contractor elects to use a port not normally serviced by U.S. Flag vessels, the government may not approve use of a Foreign-Flag vessel. It is understood by the contractor the selection of such a port is at its risk should it become necessary to divert the shipment to a port providing U.S. Flag vessel service.

C.3.2.5. If any segment of the intended routing involves use of a foreign flag vessel, the contractor may not finalize arrangements using a foreign-flag vessel for any part of the journey without the government approval, including a valid control number.

C.3.2.6. The request for authorization to use a foreign flag will be accomplished and submitted to the appropriate office by e-mail (or facsimile by prior telephonic arrangement should e-mail not function) IAW the following:

C.3.2.6.1. Not more than 15 calendar days following the date of HHG pickup and not less than 7 calendar days prior to booking cargo with a Vessel Operating Common Carrier (VOCC).

C.3.2.7. The contractor shall submit the request by e-mail to: usarmy.scott.sddc.mbx.g3-ffw-team@mail.mil. The response to each individual request will serve as the official decision and provide the certification for all approved FFW requests.

C.3.2.8. Requests for a foreign-flag waiver must be:

C.3.2.8.1. In the format prescribed and accompanied by the HHG Foreign Flag Waiver Request form below containing data elements for the shipment. The Justification Certificate below will be submitted in conjunction with the spreadsheet for waiver requests.

C.3.2.8.2. Accompanied by email attachments of correspondence from two or more US-flag carriers providing service on or near the lane in question indicating that full US-flag service is not available.

C.3.2.8.3. Accompanied by a copy of the BL for each shipment for which a waiver is requested. If, for example, two separate shipments are in the same container two BLs must be attached, along with two rows of the required spreadsheet information.

C.3.2.8.4. Clear as to the level of waiver requested, either P3 (all-foreign-flag) or P2 (partial foreign-flag, partial US-flag). If P2, indicate the US-flag leg, and the foreign-flag leg.

C.3.2.8.5. Accompanied by an explanation - if a higher level of US-flag service (e.g., P1 or P2) is available why a lower-level US-flag is being requested. For example, a shipment from Bahrain to USA for which US-flag service is available transpacific but not transatlantic, and using the US-flag transpacific will jeopardize the RDD.

C.3.3. **Note:** TSPs may not hold cargo (whether for consolidation or for other reasons) beyond the relevant deadlines of the latest US-flag vessel or combination of vessels available for delivery by RDD.
