TCODE is a service provider and Development-Security-Operations (DevSecOps) platform for tenant applications on the Department of Defense's (DOD) CloudOne infrastructure on the Amazon Web Services (AWS) (as the cloud service provider (CSP) in boundary protected Availability Zones (AZ). The TCODE platform will not collect privacy data but tenant applications on TCODE may contain PII data. TCODE will provide security controls commensurate with PII impact level of tenant application and associated data. The TCODE platform will also provide and provision databases and database security for use by tenant applications in the storage and security of their data, which may include PII. The CSP provides and implements physical security controls as part of the DOD CloudOne infrastructure contract.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The TCODE platform will not collect privacy data but tenant applications may contain PII data. Tenant applications are required to provide an approved PIA at time of TCODE on-boarding. The TCODE platform Authorization to Operate (ATO) will review and incorporate tenant application PIAs to ensure appropriate security controls are in place to protect tenant application data before on-boarding.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Tenant applications will maintain their own PIA covering the PII data they collect and the manner in which it is collected. See the applicable tenant application PIA for the process individuals would use to object to PII collection.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Tenant applications will maintain their own PIA covering the PII data they collect and the manner in which it is collected. See applicable tenant application PIA for the process individuals would use to consent to the specific uses of their PII.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

k. Does this DoD Information system or electronic collection require a Privacy Act System of Records Notice (SORN)?

A Privacy Act SORN is required if the information system or electronic collection contains information about U.S. citizens or lawful permanent U.S. residents that is retrieved by name or other unique identifier. PIA and Privacy Act SORN information must be consistent.

Yes No

If "Yes," enter SORN System Identifier

SORN Identifier, not the Federal Register (FR) Citation. Consult the DoD Component Privacy Office for additional information or <http://dpcl.d.defense.gov/Privacy/SORNs/>
or

If a SORN has not yet been published in the Federal Register, enter date of submission for approval to Defense Privacy, Civil Liberties, and Transparency Division (DPCLTD). Consult the DoD Component Privacy Office for this date

If "No," explain why the SORN is not required in accordance with DoD Regulation 5400.11-R: Department of Defense Privacy Program.

l. What is the National Archives and Records Administration (NARA) approved, pending or general records schedule (GRS) disposition authority for the system or for the records maintained in the system?

(1) NARA Job Number or General Records Schedule Authority.

(2) If pending, provide the date the SF-115 was submitted to NARA.

(3) Retention Instructions.

See applicable tenant application PIA.

m. What is the authority to collect information? A Federal law or Executive Order must authorize the collection and maintenance of a system of records. For PII not collected or maintained in a system of records, the collection or maintenance of the PII must be necessary to discharge the requirements of a statute or Executive Order.

- (1) If this system has a Privacy Act SORN, the authorities in this PIA and the existing Privacy Act SORN should be similar.
- (2) If a SORN does not apply, cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply).
 - (a) Cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.
 - (b) If direct statutory authority or an Executive Order does not exist, indirect statutory authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.
 - (c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.

TCODE does not collect PII as a system of record. See applicable tenant application PIA for SORN information.
