PRESCRIBING AUTHORITY: DoD Instruction 5400.16, "DoD Privacy Impact Assessment (PIA) Guidance". Complete this form for Department of Defense (DoD) information systems or electronic collections of information (referred to as an "electronic collection" for the purpose of this form) that collect, maintain, use, and/or disseminate personally identifiable information (PII) about members of the public, Federal employees, contractors, or foreign nationals employed at U.S. military facilities internationally. In the case where no PII is collected, the PIA will serve as a conclusive determination that privacy requirements do not apply to system.

c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

Analysis of Mobility Platform (AMP) is a federation of four capabilities and multiple models representing end-to-end deployment and distribution. AMP capabilities include AMP Core, AMP Port Analysis Tool (AMP-PAT), Rapid Course of Action Analysis Tool (RCAT), and Joint Mobility Closure Estimator (JMCE). The AMP federation of tools has been designed as a Java based thick client application that is supported for deployment on any OS platform that supports Java. However, the application is deployed primarily on MS Windows 10 workstations residing on the Non-classified Internet Protocol Router Network (NIPRNet), Secret Internet Protocol Router Network (SIPRNet), Joint Worldwide Intelligence Communications System (JWICS), and network isolated (standalone) workstations. As a desktop application, Authentication and Authorization for the AMP application is performed by the host operation system (OS). At no point does AMP have access to or awareness of any user specific information. The AMP application does not have any automated data transfer capabilities. AMP utilizes trusted data obtained by trusted users that is either entered via file upload or manual field entry. Data types include Time Phased Force Deployment Data (TPFDD) obtained from the Joint Operation Planning and Execution System (JOPES), geographic information system (GIS) information that provides environmental information, and additional environment constraints and factors such as Port of Embarkation (POE) and Port of Debarkation (POD) constraints and Military on Ground (MOG) at those locations. This data does not contain Personally Identifiable Information (PII) or Personal Health Information (PHI). Data produced by the program is transferred using approved manual processes for data transfer, including e-mail, burning and delivery of CD/DVDs, and web capabilities (SharePoint, Inteldocs, ARL Safe, etc..).

k. Does this DoD Information system or electronic collection require a Privacy Act System of Records Notice (SORN)?

A Privacy Act SORN is required if the information system or electronic collection contains information about U.S. citizens or lawful permanent U.S. residents that is retrieved by name or other unique identifier. PIA and Privacy Act SORN information must be consistent.

☐ Yes ☐ No

If "Yes," enter SORN System Identifier

SORN Identifier, not the Federal Register (FR) Citation. Consult the DoD Component Privacy Office for additional information or <http://dpcl.d.defense.gov/Privacy/SORNs/>
or

If a SORN has not yet been published in the Federal Register, enter date of submission for approval to Defense Privacy, Civil Liberties, and Transparency Division (DPCLTD). Consult the DoD Component Privacy Office for this date

(If multiple authorities are cited, provide all that apply).

- (a) Cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.
(b) If direct statutory authority or an Executive Order does not exist, indirect statutory authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.
(c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.

n. Does this DoD information system or electronic collection have an active and approved Office of Management and Budget (OMB) Control Number?

Contact the Component Information Management Control Officer or DoD Clearance Officer for this information. This number indicates OMB approval to collect data from 10 or more members of the public in a 12-month period regardless of form or format.
