(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

Personally Identifiable Information (PII) is collected for movement of personal property shipments to include payment of carrier. It also provides financial data in Electronic Data Interchange (EDI) format to the Defense Finance and Accounting Services (DFAS) for carrier and agent payments, and provides data interfaces with other Service systems.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

No additional privacy risk associated caused by the PII collection. However, the system applied discretionary access controls and complies with Federal Information Processing Standards (FIPS) 140-2 and Federal Information Security Management Act (FISMA) requirements.

h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.

i. Do individuals have the opportunity to object to the collection of their PII?

Yes **No**

(1) If "Yes," describe method by which individuals can object to the collection of PII.

When requesting shipment and/or storage of personal property, the prospective user submits an application (i.e., DD Form 1299, DD Form 2875). There is a requirement on many DoD Forms relevant to personal property shipments that require the military member to provide a social security number (SSN). If the applicant does not provide requested information on required forms, the Personal Property Shipping Office (PPSO) must manually input the PII for the service member in order to create an account in the Electronic Transportation Authorization (ETA) system, the system through which customers access Transportation Operational Personal Property System (TOPS).

(2) If "No," state the reason why individuals cannot object.

j. Do individuals have the opportunity to consent to the specific uses of their PII?

Yes **No**

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

A warning banner that must be acknowledged by the user is used to inform each individual whom it asks to supply information the authority for data collection, the principle purpose or purposes for which the information is intended to be used, the routine uses which may be made of the information, and the effects on the individual, if any, of not providing all or any part of the requested information in accordance with the Privacy Act of 1974. PII is collected for personal property movement only.

(2) If "No," state the reason why individuals cannot give or withhold their consent.
